# CHARGE PLOT TO INTIMIDATE JUDGE

## Claim State Fires Again Under Control

### BIG BLAZE IN NORTH CHECKED

Authorities Trace Latest Outbreak to Carelessness of Motorist

TROOPS TO BEGIN PATROL ON SUNDAY

Women and Two Children Escape Flames By Taking Refuge In Swamp

BEND, Ore., July 26.—Fanned by a changeable and dangerous wind, a forest fire is raging uncontrolled today on the north end of Squawback ridge, north of the town of Sisters. The timber being devastated is privately owned. Lightning is believed to have been the cause of the fire.

(By United Press Leased Wire)  
SAN FRANCISCO, July 26.—Forest fires in California and the Pacific Northwest were under control again today following the second big break of the summer two days ago.

One of the worst fires of the season, which broke out in Klamath National forest Thursday when a passing motorist carelessly tossed a lighted cigar into a tinder-like underbrush, was controlled late Friday after 500 men had fought it for 24 hours.

The first destroyed a school house, five ranches and burned over five thousand acres of valuable timberland in Siskiyou county. Three miles of high power transmission line also was destroyed.

Woman, Tots, Safe  
Mrs. Mary Erickson and her two children who were reported caught in the ring of fire took refuge in a swamp and have been brought to safety, according to reports received here from Yreka.

Another section of this fire, which for a time threatened the town of Greer, was halted when fire fighters turned the waters of an irrigation ditch into its path.

The first detachment of United States regular troops to be placed on duty as motorcycle patrols in California National forest will be on the job Sunday and other detachments will be ready for that work as soon as they are needed. One hundred officers and men form the first detachment.

Troops to Move  
Final orders for the detachment at 7 a. m. tomorrow of two detachments of troops have been issued by Major General Charles G. Fortson, commanding the ninth corps area.

One detachment will go by motor truck from San Francisco to Upper Lake in Lake county, and to Stoney Ford in Colusa county. This detachment will be evenly divided between these two areas.

Three officers and thirty enlisted men of the Thirtieth infantry will go from Monterey for duty in the San Bernardino and Newhall districts of Southern California.

All the men will be equipped for field service. Motorcycles will be shipped to them immediately.

Many Brush Fires  
Brush fires still were burning near Portland, Ore., but are not endangering valuable property. Similar fires in Clackamas county have been controlled after destroying many acres of maturing crops.

Green timber is being destroyed in Polk county but the situation there is reported more encouraging.

Fires in the Upper Willamette Valley and along the coast have been controlled. Vast improvement is reported.

**\$250,000 Flames Sweep Rail Town**  
TACOMA, Wash., July 26.—The business section of the town of Tacoma, terminus of the Willamette railroad national park branch in eastern Lewis county was gutted by early morning fire. The loss was estimated at \$250,000. Hotels, hospitals, general stores, pool halls, and three private residences were destroyed.

### U. S. Protest To Persia Kept Secret

WASHINGTON, July 26.—The American government has dispatched a note to Persia on the recent murder of Robert W. Imbrie, vice-consul, in the streets of Teheran by a fanatical mob, it was learned today.

Although the state department will not comment on the contents of the communication it is believed the note makes a strong protest against the killing of Imbrie and demands amends for the murder of this government's representative. The note may be made public after its formal presentation to the Persian government.

L. A. Sheriff Takes Extra Precautions Fearing "Badge Bandit" In Escape Plot.

LOS ANGELES, July 26.—Determined to guard Harry J. Dunlap, "badge bandit," against any possible efforts to free him from jail, Sheriff Traeger today ordered a double guard placed about the dark cell where Dunlap is confined.

The action followed information that two suspicious characters had been seen hanging about the jail and Dunlap's declaration that he would escape if the opportunity should arrive.

Additional witnesses visited the jail today in an effort to identify the "badge bandit" as the perpetrator of attacks and robberies in and about the city last winter.

### 5 INDICTED AS COUNTY RUM RUNNERS

Five asserted liquor runners, arrested near Balboa, June 27, with liquor valued at \$12,000 in three automobiles, have been indicted by the federal grand jury, according to announcement made today by United States Commissioner Long.

The indictments were returned late yesterday, doing away with the scheduled arraignments set for today.

The men are M. J. Mohr, George Wilbur, Charles J. Raymond, James Craig and David Harsey. They were arrested by federal and Orange county officers five miles south of Balboa after, it is alleged, they had landed the liquor from a motor boat which escaped.

The liquor and three automobiles, valued at \$11,000, were confiscated. The men are out on \$2500 bond each and will appear in district court at a date to be set, when they will have a time designated for trial.

The alleged rum smugglers were arrested after two weeks' vigil, day and night, by Special Deputies Ben and George Nimmo, whose ranches join where the liquor was said to have been landed. The Nimmo brothers were assisted during the last few days by their watch by Captain Robert F. Martin and two of his assistants from the United States customs office at Los Angeles, who aided in the arrest of the quintette in the early morning of June 27.

The liquor schooner, which succeeded in escaping to sea, had landed 100 cases of Canadian whiskey and fancy liquors and 104 gallons of grain alcohol, according to Orange county officers.

The dampness completed a circuit and 6000 volts of electricity passed through his body, hurling him fifty feet back into the prison yard.

Fritsch was serving a 15 to 20 year sentence for shooting a cashier in a bank at Sharonville, O., near Cincinnati.

**BASEBALL RESULTS**  
NATIONAL LEAGUE  
St. Louis . . . 000 012 010—4 10 0  
New York . . . 020 001 20X—5 9 2  
St. Louis—Dickerson and Gonzales; New York—Watson and Snyder.

Cincinnati . . . 100 000 010—2 7 3  
Brooklyn . . . 000 020 001—3 10 1  
Cincinnati—Benton, Sheehan and Wingo; Brooklyn—Grimes and Taylor.

Chicago . . . 000 221 000—5 12 0  
Philadelphia . . . 000 000 010—1 7 0  
Chicago—Keen and Hartnett; Philadelphia—Mitchell, Meadows and Henline.

All those who have not registered since the first of the present year, or who have changed their residence from one voting precinct to another since they registered, must register in order to qualify. County Clerk Backs emphasized.

## FLIGHT MAY END AT SEATTLE

### THIRD PARTY STARTS WAR ON SOLONS

La Follette Group Will Issue "White List" of Favored Candidates

(By United Press Leased Wire)  
WASHINGTON, July 26.—The first installment of a long white list instead of a black list, to guide independent voters in supporting congressional candidates will be issued within a few days by the La Follette forces, it was learned today.

In preparing the white list the joint executive committee of eleven working with Senator La Follette will concentrate on eight states in which primaries are to be held early in August.

They are: Kentucky, August 2; Kansas, Missouri, Oklahoma and Virginia, August 5; Tennessee, August 7; Ohio and Arkansas, August 12.

**Issue Blacklist**  
The railroad brotherhoods, closely allied with the La Follette independents, in today's issue of "Labor," their official organ, issued their own blacklist.

The only test applied by the "Big Four" is the vote on the Howell-Harkley bill to abolish the railroad labor board. This black list contains the name of Republican Leader Longworth and Democratic Leader Garrett of the house; Senator Shields of Tennessee; Representative Burton, Ohio, Republican "keynote" and Representative Cooper, Ohio, who was elected as a Labor candidate.

Senator Stanley, Kentucky, is placed on the Brotherhood's white list without reservation, while Senator Capper, Kansas, is given a qualified endorsement. "Labor" states that Capper's "record is far from satisfactory but his opponents are apparently even more reactionary."

**Plan Broader Test**  
While the La Follette white list may include many of the same candidates endorsed by the Brotherhoods, it was emphasized at the senator's office that the railroad men were acting for themselves. Independent leaders intend to apply a broader test to determine whether a candidate's record is "progressive."

In deciding to issue a white list instead of a black list, the La Follette forces believed it would be more effective to take an affirmative, rather than a negative position. Inferentially it was said candidates not on the white list might be considered blacklisted.

### CONVICT LOSES LIFE IN BOLD ESCAPE PLOT

(By United Press Leased Wire)  
COLUMBUS, O., July 26.—Ralph Fritsch, 22 year old convict, died in Ohio penitentiary hospital today as a result of the most unique and daring break for freedom in the history of the prison.

Fritsch scaled a pole and was swinging hand over hand along the high tension electric wires which run over the prison wall when the socks he was wearing on his hands as insulation against the current became soaked with perspiration.

The dampness completed a circuit and 6000 volts of electricity passed through his body, hurling him fifty feet back into the prison yard.

Fritsch was serving a 15 to 20 year sentence for shooting a cashier in a bank at Sharonville, O., near Cincinnati.

**City's Motorists Pay \$22 in Fines**  
City Recorder W. F. Heathman's police docket today showed \$22 collected in fines for traffic violations of four motorists. Elmer M. Rains paid \$15 for speeding thirty-one miles an hour. C. L. Foulk was fined \$2 for parking in a restricted district. Carl E. Shellenbeck of San Diego was assessed \$2.50 for failing to signal when making a turn, and Glenn W. Mayes of Los Angeles was taxed \$2 for parking his car downtown between 2 and 5 p. m.

**Cleveland Bank Chiefs Indicted**  
CLEVELAND, O., July 26.—Seven officials of the Municipal Savings and Loan company, Representative Realty company and five local allied companies, were indicted here by a special grand jury. The indictments charged embezzlement, certification to false financial statement and perjury.

**"Brother Charley," President**  
From the Literary Digest  
Peculiar interest, for a number of reasons, attaches to the Democracy's choice of Charles Wayland Bryan as Mr. Davis's running-mate in the Presidential race. He is the hitherto little-known brother of the very well-known William Jennings Bryan; as a Progressive Western Democrat he is expected to strengthen the Davis ticket in those sections where his party fear the inroads of La Folletteism; he, rather than Mr. Davis, some correspondents tell us, will be selected by the Republicans as the chief target for their artillery and small-arm fire; and, if the election results in a deadlock of Coolidge, Davis and La Follette in the Electoral College, he may be the next President of the United States. The last-named curious possibility is thus explained by the Republican Minneapolis Journal: "Such a deadlock would throw the election in to the present House, voting by States, and would inevitably be followed by a similar deadlock. "These deadlocks would make President on March 4 the man whom the Senate meanwhile had elected Vice-President. But the Constitution restricts voting in the Senate to the two highest candidates in the Electoral College vote, and not the three highest, as in the House. Thus the Senate would have to choose between Dawes and Bryan. A third deadlock would thus be all but impossible. "The political balance of the Senate makes Bryan a more likely choice than Dawes, since he would get the two Farmer-Labor votes from Minnesota, the vote of La Follette and those of three or four La Follette Republicans. Bryan would be more acceptable than Dawes to men like Brookhart, of Iowa, and Frazier and Ladd of North Dakota. "This possibility is one that is likely to cut a considerable figure in the campaign."

### COOLIDGE IN ATTACK ON PACIFISTS

President Charges Foes of Preparedness With Misrepresenting Facts

(By United Press Leased Wire)  
WASHINGTON, July 26.—President Coolidge today rebuked pacifist organizations for opposing preparedness and interfering with plans for "Defense Day," September 12 next when a test will be made of the nation's military resources.

The president said criticisms of this test as "militaristic" were "unfair" and declared the critics had made use of the "device of misrepresentation."

Coolidge's views were contained in reply to a letter from Frederick J. Libby, executive secretary of the national council for prevention of war, which is promoting a campaign to recognize the tenth anniversary of the outbreak of the world war by a demonstration against war. Libby asked for President Coolidge's endorsement of the move.

President Coolidge answered today that he was thoroughly in sympathy with every "practical" effort to prevent war but said he strongly objected to stripping the nation of safeguards in the belief this might minimize the chance of war.

"I wish crime might be abolished," the president wrote, "but I would not therefore abolish courts and police protection; I wish war might be made impossible but I would not leave my country unprotected meanwhile."

The president took particular exception to the national council's opposition to the Defense Day test. He declared those who had characterized the day as "Mobilization Day" had been utterly unfair.

**Save Pair at Sea Four Days Minus Food**  
(By United Press Leased Wire)  
NEW YORK, July 26.—One chewing the woodwork of a small dory, the other drinking sea water two Breton fishermen were rescued by the French liner France after being tossed about the Atlantic for six days during four of which they had been without food.

The dory was sighted Wednesday morning off the Grand Banks, about 90 miles from land, and even after their days of privation the two men, Francois Heudes and Francois Allain, were so cheered by the sight of the liner turning off her course to pick them up that they picked up their oars and made a strong finish alongside the big ship.

The rescued men told of having set out from their fishing schooner on July 18 as usual for the day's catch, of a sudden storm and their inability to find the schooner after the storm. They had only a few biscuits and less than a gallon of water in the dory and this was all consumed by the end of the second day.

Twice they heard ships close by in the night but were unable to attract their attention, although they followed one for more than two hours.

**Weather Delays Test of American Planes**  
BROUGH, England, July 26.—Inclement weather and uncompleted alterations caused postponement of test flights of the American round the world planes which were to have been made on the Estuary of the Humber today.

Resumption of the flight is postponed accordingly. The test flights will be held Monday and the flyers plan to hop to the Orkneys Wednesday.

**Flyer Battles Gale in World Flight**  
PARIS, July 26.—Major Petro Zamni, Argentine aviator who left Amsterdam this morning on the start of a world flight, arrived here and landed at 3:02 p. m. after a perilous battle with the terrible windstorms which swept Belgium and France. The flyer, departing from Amsterdam at 6:29, was forced down at Rotterdam and advised to discontinue his attempt but insisted upon continuing.

**Jap Murders Son, Attempts Suicide**  
SACRAMENTO, July 26.—His body ravaged by tuberculosis and his mind unbalanced by brooding over his inability to earn a living for his family, T. Tatsumi, Japanese, shot and killed his five year old child, Shinji, shortly before noon today. He then turned the weapon on himself and inflicted probably fatal wounds.

At the emergency hospital the Japanese begged attendants to kill him before he became unconscious.

**Suspect Bootleg Death**  
SAN PEDRO, July 26.—Benjamin Patterson, fisherman, was found dead on board the fishing boat Balkyne here today, apparently a victim of poison. Police believe the man may have succumbed to bootleg liquor.

### Pays Fine As Court Held Via Telephone

EUGENE, Ore., July 26.—High on the summit of the Cascades south of McKenzie Pass, a sheep herder tending a flock of sheep for J. W. Fisher of Shaniko, left his camp fire burning. For his offense he was trailed by forest rangers and arrested. The shepherd could not be taken from his flock, so was haled to the nearest telephone line. At the other end of the line was Justice Jesse G. Wells, who heard the evidence and imposed a ten dollar fine which was collected by the ranger eighty miles away.

### KILL HOPES FOR CUT IN SUGAR PRICE

Federal Men Declare Present Level to Continue for Two or Three Months.

WASHINGTON, July 26.—Hopes for cheaper home-made jam for the great American family during 1924 were dashed by officials here today.

There is little prospect for reduction in the price of sugar before the end of the summer canning season, now at its height, officials said.

Refined sugar is selling at an average of 7.6 cents a pound retail, it was said, and a lower price cannot be expected sooner than two or three months.

### PLAN SPEEDY ENDING FOR AIR TRIP

Los Angeles Begins Fight to Make Santa Monica Cruise Terminal

(By United Press Leased Wire)  
WASHINGTON, July 26.—The army around the world flyers will make a business-like finish of their epochal flight, war department officials said today. The shortest possible route back to the Pacific Coast will be taken so as to bring the world flight to an end as soon as possible.

The war department today was considering the question of where to end the flight. One tentative plan drawn up provides that the flight shall end at Seattle, Wash., which would make the world trip nineteen days shorter than first estimated. San Francisco is another place where it has been planned to conclude the flight. No decision has been reached.

The flyers on their flight across the continent will follow the air mail route. From Boston, New York and Washington they will take the route to Dayton, Ohio, Chicago, St. Joseph, Mo., Cheyenne, Salt Lake City, Elko, Nev., Sacramento, Eugene, Ore., Seattle and then possibly to San Francisco. Possibly they may return to their starting point—Santa Monica.

**L. A. TO PROTEST CHANGE OF TERMINAL**  
LOS ANGELES, July 26.—Discussion in some circles of having the American world flight end in Seattle instead of at Clover field, Santa Monica, the starting point, will be met with vigorous protest from this city.

Secretary Frank Wiggins of the Chamber of Commerce today received a message from the Chamber's Washington representative that Seattle business men are attempting to influence war department authorities to have the official termination of the flight occur there.

Wiggins immediately urged all members of the Chamber to lay down a barrage of telegrams on Washington, demanding the flyers return to their starting point and close the momentous air journey at Clover field.

Secretary Weeks of the war department is said to favor Clover field, according to Wiggins' advice.

**WEATHER DELAYS TEST OF AMERICAN PLANES**  
BROUGH, England, July 26.—Inclement weather and uncompleted alterations caused postponement of test flights of the American round the world planes which were to have been made on the Estuary of the Humber today.

Resumption of the flight is postponed accordingly. The test flights will be held Monday and the flyers plan to hop to the Orkneys Wednesday.

**Flyer Battles Gale in World Flight**  
PARIS, July 26.—Major Petro Zamni, Argentine aviator who left Amsterdam this morning on the start of a world flight, arrived here and landed at 3:02 p. m. after a perilous battle with the terrible windstorms which swept Belgium and France. ### Hostility to Boys Shown In Court Mail

CHICAGO, July 26.—Masses of mail from all parts of the country are flowing in on Chief Justice Caverly of the Franks case. Some of them are in sympathetic vein but most of them are openly hostile to the boys.

One letter, received today and signed "M. S. Painter, No. 50 Sheldon, Grand Rapids, Mich.," states:

"I will give you \$100 if Leopold and Loeb are found guilty of murder in the first degree and sentenced to hang by the neck until death takes them if you will let me pull the trigger that springs the trap that hangs them. I am an old man, 66 years old, but I am game. I have no use for such fiends."

### REBEL CITY FACING NEW SHELL FIRE

Loyal Brazil Soldiers Order Civilians from Town; President Ready to Flee.

BUENOS AIRES, July 26.—All civilians have been notified by the Brazilian government to leave Sao Paulo where federal troops plan to launch a decisive attack and crush the revolutionists, according to authoritative reports from Rio de Janeiro today.

The attack is to be launched against the rebel stronghold through thickly settled sections of the city.

President Bernardes is keeping a launch ready day and night, prepared to flee should the occasion warrant, according to reports brought by steamers from Rio de Janeiro.

**Morgan Wants Security for Bond Buyers**  
(By United Press Leased Wire)  
NEW YORK, July 26.—Demanding security for American investors in German bonds is the basis for the sale of the bonds in this country. J. P. Morgan sailed today for England on the liner Minneapolis where he expects to advise the allied statesmen at the London reparations conference.

The banker made it clear in a formal statement that he was not going in an official capacity, that this was his annual vacation, but if he were asked he would be glad to advise with members of the conference.

"As bankers we should not ask the American investor to buy German bonds until the Allies have determined on a policy which will in our opinion, give security to the bond holders," Morgan said.

**Envoy Confident of Success in Parley**  
LONDON, July 26.—The atmosphere of the inter-allied conference was decidedly brighter today.

High hopes were entertained that differences over guarantees and sanctions might be straightened out before a plenary session of the reparations conference, scheduled for 4 p. m. Monday.

A two-day search for a formula that would coordinate the views of the French and the Anglo-American banking group ended temporarily with Ambassador Kellogg's luncheon, which was attended by Hughes, Herriot, Theunis and De Stefani.

The formula was not found and with everyone nearly exhausted it was decided to make Saturday and Sunday days of comparative rest and look to the default committee and the "big five" to find the solution on Monday before the plenary session starts.

**O. A. Haley Company, Dodge Brothers Motor Cars Dealers Want to Sell**  
What did they do? Tell their friends among the dry-goods merchants or garage owners? No, this wide-awake firm came to the Register with a want ad and told its want to the world. Result: For several days after the little ad appeared, the Haley company's office was swamped with fair young ladies making application for the job. Moral: Tell it to the world through Register Want Ads.

## HIT STORY OF STATE WITNESS

Darrow Grills Sergeant on Testimony In Trial of Brutal Boy Slayers

DEFENSE LAUNCHES FIGHT ON SLEUTH

Officer Reveals Leopold's Hope of Having Friendly Judge Hear Case

(By United Press Leased Wire)  
CRIMINAL COURT ROOM, Chicago, July 26.—Charges of "attempted intimidation of Justice John R. Caverly" by a state witness was made today by Chief Defense Attorney Clarence Darrow at the judicial hearing of Richard Loeb and Nathan Leopold for the murder of Robert Franks.

After more than an hour of merciless cross-examination of Sergeant James Gortland, Darrow suddenly shot at him this question:

"Don't you know that this story of yours of a friendly judge is a pure fabrication given for the purpose of intimidating this court?"

"No, it is not," Gortland replied. "Chance To Dodge Noose"

During his testimony yesterday, Gortland said that during one of his conversations with Leopold the defendant had said, among other things, that he felt if judge he would get off with life imprisonment. The examination of Gortland by the defense represents the first serious effort to break a link in the state's chain of evidence.

With his massive head hanging forward on stooped shoulders, Darrow pounded Gortland's testimony. Again and again he took him over the ground covered in the officer's investigation and brought out the fact that considerable of the testimony he gave had not been written down at the time of the conversation but had been dug from the officer's memory.

Gortland's official report and found it did not contain a reference to "a friendly judge."

**Boys Examine Notes**  
Leopold and Loeb grouped themselves with two of the defense attorneys and examined some of the notes. They held whispered conversations and pointed out inaccurate entries.

By showing that Gortland trusted his conversations with Leopold to memory, Darrow hopes to nullify considerable testimony of the witness.

"When was it he told you that if he appeared before a friendly judge he would get off with life?" Darrow asked.

"This was after the confessions," the witness replied. "Read it," Darrow commanded and G

### Program for Next Week OUT-OF-TOWN STATIONS

KHJ—Los Angeles Times  
395 Meters

Week Commencing July 27, 1924

Sunday, July 27—  
10:00 a. m.—Sermon from KHJ studio by Dr. C. H. Culbertson, pastor of the Plymouth Congregational church.

10:30 to 12:30 p. m.—Organ recital and entire religious service from the First Methodist Episcopal church; Arthur Blakeley, organist, and Rev. Elmer E. Helms, pastor.

4:30 to 7:00 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

7:00 to 7:30 p. m.—Organ recital; Arthur Blakeley, organist.

8:00 to 10:00 p. m.—Program presented through the courtesy of the West Coast Theaters, arranged by Mr. Spier.

Monday, July 28—  
12:30 to 1:15 p. m.—Program presented by Carl Allen and his Rendezvous Ballroom Orchestra from the Crystal Pier.

Tuesday, July 29—  
12:30 to 1:15 p. m.—Program presented through the courtesy of Piggly-Wiggly.

2:30 to 3:30 p. m.—Hollywood Bowl program sponsored by Mrs. J. J. Carter, presenting Bess Daniels, pianist.

6:00 to 6:30 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

6:45 to 7:30 p. m.—Children's program presenting Prof. Walter Sylvester Hertzog. The weekly visit of the Sandman and Queen Titania. Frances Bardo, 9 years old, reader. Bedtime story by Uncle John.

8:00 to 10:00 p. m.—Program presented through the courtesy of the B. T. Spencer Wallpaper and Paint Store of Anaheim, arranged by Gladys Llewellyn and the Sunlight Orchestra.

10:00 to 11:00 p. m.—Art Hickman's dance orchestra from the Biltmore Hotel.

Wednesday, July 30—  
12:30 to 1:15 p. m.—Program of music and news items. Fred C. McNabb, speaker.

2:30 to 3:30 p. m.—Silent.

6:00 to 6:30 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

6:45 to 7:30 p. m.—Program presented through the courtesy of the Hollenbeck Charters; an evening of old-fashioned songs. Dr. Mars Baumgardt, lecturer.

10:00 to 11:00 p. m.—Art Hickman's dance orchestra from the Biltmore Hotel.

Thursday, July 31—  
12:30 to 1:15 p. m.—Program of news items and music.

2:30 to 3:30 p. m.—Hollywood Bowl program, sponsored by Mrs. J. J. Carter, presenting Bess Daniels, pianist.

6:00 to 6:30 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

6:45 to 7:30 p. m.—Children's program presenting Prof. Walter Sylvester Hertzog. The weekly visit of Dickie Brandon screen juvenile. Bedtime story by Uncle John.

8:00 to 9:00 p. m.—Program presented through the courtesy of the Platt Music Company, arranged by Edwin Lester.

9:00 to 10:00 p. m.—Program presented by Al Schiller, pianist. "Radio Red's" Hawaiian Trio.

10:00 to 11:00 p. m.—Art Hickman's dance orchestra from the Biltmore Hotel.

Friday, August 1—  
12:30 to 1:15 p. m.—Program presented by C. J. Frank baritone.

2:30 to 3:30 p. m.—Hollywood Bowl program, sponsored by Mrs. J. J. Carter, presenting Bess Daniels, pianist.

6:00 to 6:30 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

6:45 to 7:30 p. m.—Children's program presenting Prof. Walter Sylvester Hertzog. The weekly visit of Richard Hendrick screen juvenile. Bedtime story by Uncle John.

8:00 to 10:00 p. m.—Program presented through the courtesy of the Hellman Commercial Trust and Savings Bank, arranged by A. K. Berkland.

10:00 p. m.—Charlie Wellman, tenor, and Bill Hatch, pianist. "Music Makers."

Saturday, August 2—  
12:30 to 1:15 p. m.—Program of music and news items.

2:30 to 3:30 p. m.—Silent.

6:00 to 6:30 p. m.—Art Hickman's concert orchestra from the Biltmore Hotel.

man's Concert Orchestra from the Biltmore Hotel.

6:45 to 7:30 p. m.—Children's program presenting Prof. Walter Sylvester Hertzog. Bedtime story by Uncle John.

8:00 to 10:00 p. m.—Program presented through the courtesy of the Martin Music Co., arranged by J. Howard Johnson.

10:00 to 11:00 p. m.—Art Hickman's dance orchestra from the Biltmore Hotel.

Saturday, August 2—  
5:30 to 6:00 p. m.—Examiner News Bulletins.

6:45 to 8:00 p. m.—Hennessy's Paramount Players.

8:00 to 9:00 p. m.—Los Feliz Trio.

### SIGNALS SHIFT AS SHIPS GO NORTH

By NEA Service  
HARTFORD, Conn., July 26—Radio enthusiasts are mystified over the shift in radio signals of Donald B. MacMillan's "Bowdoin" in the arctic from the east coast to the west.

It is the surprising feature of the amateur tests that have been conducted during the last year as the famous schooner sailed northward for further arctic exploration.

While the vessel sailed up the coast of Greenland, Donald Mix, its radio operator, was in good two-way contact with amateurs in the eastern part of the United States. At a point farther north, however, the signals began to be picked up on the Pacific coast and the eastern amateurs lost contact with Mix.

This condition existed through all last winter, although at times amateurs picked up short messages from Mix. For nearly seven months reliable contact was maintained, while intermittent signals were received during the rest of the time.

With the approach of daylight in the arctic signals from Mix have continued to fall off, except for an occasional "all's well." Contact is expected to be renewed soon when MacMillan starts States. At a point farther north, for home.

### A Double Announcement

The New D-12  
**De Forest  
Radiophone  
\$175.00**

Complete

TERMS

The engineers of the De Forest Company have watched with keen interest all developments in the art of broadcast reception, since the public expects the De Forest Company to keep well in advance of all other manufacturers, because of the acknowledged De Forest preeminence in radio discovery and manufacture.

With all these facts in mind, the De Forest Company now offers a new Radio receiver, combining all the most recent developments, with the addition of several other important advantages, not possessed by any other receiver now on the market.

New Type D-12  
**Sold at  
Strock's  
Exclusively**

We invite you to call and inspect the new De Forest. A surprise awaits you at the first demonstration both in appearance and performance!

The new D-12 is a four tube long distance indoor loop receiver, with self-contained batteries and loud speaker. It is compact, simple to operate, efficient, has low upkeep cost and presents a remarkable value in its beautiful art cabinet at only \$175 complete.

**Carl G. Strock**

READY

C. FRANCIS JENKINS HOLDING THE PRISMATIC RING WHICH HAS ENABLED HIM TO PERFECT APPARATUS FOR TRANSMITTING PHOTOS BY RADIO.

Jenkins Started As  
U. S. Clerk

Who's Who on C. Francis Jenkins, inventor of the motion picture projector and the radio photo transmitter.

Born near Dayton, O., in 1868.

Worked five years in northwest logging camps, then to cattle ranges and silver mines of southwest.

Next, clerk in the U. S. treasury department at Washington.

Worked on inventions at night.

Showed first motion picture projector June 6, 1894.

Sold his interest in the invention for \$2500!

Has some 300 patents to his credit, some for paper box machinery.

Hobby is taking flights in his own airplane.

**VOLTMETER HANDY**

A voltmeter is especially useful to check up on the strength of the B and C batteries, where several tubes are used and the drain on plate voltage is high. The storage battery is tested by a hydrometer.

**BATTERY CONFERENCE**

Dry battery manufacturers are planning to meet with government radio men in a conference to adopt certain standards for their products. The best kinds of batteries for radio use are planned.

Call letters for the new New York City broadcasting station are WNYC.

A five kilowatt transmitter has been ordered for Station WSAI, Cincinnati.

When a 22½-volt B battery drops below 17 volts it may be considered useless.

### INVENTOR'S APPARATUS ON MARKET

By NEA Service

WASHINGTON, July 26—Transmission of pictures by radio, long the subject of world-wide discussion and experiment, is at last ready for practical use.

Initial installations are now being made and soon the whole United States, as well as other countries, is expected to be covered with a network of radio photo transmitting and receiving apparatus.

A company has already been formed here for the purpose. It establishes and operates transmitting equipment, manufactures and leases receiving apparatus, and is continuing research work for perfection of the machinery. Basic patents have already been issued and others have been applied for.

Behind this tremendous advance in the history of wireless is C. Francis Jenkins, inventor, who is as famous in the motion picture field as he is in the radio field. He has the distinction of being accredited the inventor of the first motion picture projector.

**The Apparatus**

For the last few years it has been known that Jenkins had been working on a method of sending pictures by radio. Others, too, have been busy with the same idea, but Jenkins' machine is unique.

The basis of the apparatus is a prismatic ring, or disc, which Jenkins himself designed and can make only by use of special apparatus. In the sending apparatus four prismatic rings are combined, revolving across a light beam directed through a photo negative. These rings slice the rays into strips and convert the light values into electrical values.

The electrical values are then sent out into space on radio carrier waves, just as sound is transmitted. At the receiving end, these electrical waves are caught, converted into light and recorded on a photo negative.

Thus one broadcasting station can transmit a photograph to as many points as have the required receiving apparatus, powerful enough to detect the wave of the broadcaster. In this, the photo broadcasting is similar to sound broadcasting, the distance of transmission being dependent on the power of the station and the strength of the receiving set.

**Radio Vision Ahead**

Jenkins expects to go even further. He forecasts the coming of radio vision and radio movies within a few years. In his laboratory here, five youths are helping him perfect these wonders. Combined with audio-radio, Jenkins sees the next generation listening and seeing plays and events enacted far away.

### Radiola Super-Heterodyne No Antenna—No Ground—No Static

Static at this time of the year is a source of a great deal of annoyance on receiving sets using an outside antenna. The Super-Heterodyne uses no antenna and gives perfect reception without static. We invite you to enjoy the Super-Heterodyne in action at your home or here at the Den. The Super-Heterodyne is priced at \$286.00 less batteries.

## Death Notices

A WORD OF COMFORT  
The realities which are missed  
by those who have not known a  
great love or a great sorrow, are  
your most precious possessions.  
Because of what you have ex-  
perienced you are certain of what  
others only hope for. You know  
that God's love is sufficient to  
carry you on to the day when He  
calls you home.CARNES—At 1625 West Fourth street,  
July 25, 1924, Mrs. Goldie C. Carnes,  
aged 29 years, wife of W. J. Carnes.  
Preparations are being made at  
the Winthier Mission Funeral home  
for services and burial at Battle  
Creek, Mich.Fail to Identify  
Suspect as SoughtJack Terry, alias Walter J. and  
Jack Terrell, arrested Thursday  
night by Officer J. M. Smith, has  
not yet been identified as one of  
several suspects wanted in other  
cities who used some of the names  
given by Terry, according to Her-  
man Zabel, superintendent of the  
Orange county bureau of identi-  
fication, although officers here have  
expressed themselves confident  
that the prisoner is a wanted  
criminal.Terry, who was sentenced by  
City Recorder W. F. Heathman to  
serve thirty days in jail on a  
charge of vagrancy, is said to have  
objected strongly to having his  
face photographed or his finger-  
prints recorded. He admitted, ac-  
cording to the officers, that he has  
served three years in the Louisi-  
ana state prison for burglary.\$425 Due Man for  
Labor, Suit AversJudgment for \$425 alleged to be  
due for labor was asked today in  
a suit filed here in the superior  
court by George W. Munger  
against H. J. Adams of Orange.  
Attorney L. F. Coburn, Orange,  
represents Munger.

## The Cheerful Cherub

To ask is not the  
way to get —  
Alone and proud the  
strong man stands  
And people give much  
more to him  
Than to the  
weak who  
make demands  
BY CAN'T

## News Briefs

The grading of McFadden street  
from Main to Halladay street was  
reported completed today, and  
workmen will begin Monday to lay  
a six-inch asphalt paving, City En-  
gineer W. G. Knox announced.  
Roe Drive will have a sewer and  
paving from Main street west  
about 600 feet. Construction will  
begin immediately, and concrete  
will be poured to a depth of five  
inches.A \$10,000 building permit was  
issued today by City Inspector W.  
S. Decker to K. M. Ramsey of 1101  
West Seventeenth street for the  
construction of a seven-room stucco  
residence and garage at 2647  
North Main street. The new  
home will be of Spanish design  
and will be built immediately,  
Ramsey declared.The state railroad commission  
has issued an order granting per-  
mission to the La Habra Domestic  
Water company to increase rates to  
consumers at La Habra, according  
to information received here to-  
day.All who ever lived in Nebraska  
today were called to meet under  
the auspices of the Nebraska Asso-  
ciation of Southern California for  
a summer reunion to be held all  
day Saturday, August 2 at Bixby  
park, Long Beach.Lewis F. Christie, a Huntington  
Beach oil worker, today had on file  
in federal court, Los Angeles, a  
voluntary petition in bankruptcy,  
in which he listed his liabilities as  
\$2794 and his assets as \$250.Irrigation demonstrations which  
have been conducted throughout  
the county during the past several  
days by the extension department  
of the University of California col-  
lege of agriculture came to a close  
yesterday. H. E. Wahlberg, farm  
adviser, stated today the demon-  
strations were the best attended in  
several months, and that at this  
time taking an unusual amount of  
interest in the subject, due to the  
power shortage.Santa Ana delegates to the Na-  
tional Life Underwriters' associa-  
tion convention, held in Los An-  
geles, had returned today, after dis-  
tributing among the delegates thou-  
sands of oranges bearing an Orange  
county stamp. Guy J. Gilbert ad-  
dressed the convention on "How to  
Secure Data on Prospects." He was  
also chairman of the hotels recep-  
tion committee. Other Santa Ana  
delegates to the convention were  
R. G. Cartwright, J. W. Estes Jr.,  
W. L. Duggan, D. S. Johnson and  
A. F. Nowotny.A. A. Brock, county horticultural  
commissioner, together with sev-  
eral assistants, left here at noon  
today for St. Pedro harbor, where  
they will inspect the baggage of  
the passengers arriving on the  
steamer, Calawall from Honolulu,  
in search for the Mediterranean  
fruit fly.The Santa Ana Rotary club di-  
rectors have announced the elec-  
tion of two new members to the  
club. They are William H. De-  
Wolf, realtor, and Walter C.  
Archibald, manager of the Crane  
company.The water supply committee of  
the Chamber of Commerce here  
was being reminded today of its  
meeting scheduled for Tuesday at  
4:30 p. m.Approximately sixty members of  
the Orange county vintners, La So-  
ciete des 40 Hommes et 3 Chevaux  
will leave here this afternoon for  
San Diego, where they will attend  
the initiation services and prome-  
nade of the San Diego county  
vintners, to be held at the city hall  
in East San Diego tonight. Z. B.  
West Jr., Chief de Gare of the lo-  
cal vintners, will have charge of the  
Orange county delegation.An all-day session of avocado  
growers of Southern California  
was being held today at Hewes  
park where scores of Orange coun-  
ty growers, together with growers  
from virtually every other county  
in the southern part of the state  
discussed production problems. The  
picnic is being held under the aus-RING FIRE BELL  
AT MIDNIGHT  
WEDDINGA wedding with bells—yes,  
covebells—was held late last night  
when firemen came to the rescue  
of a couple who believed fate  
must have said "bells must not  
ring tonight," and this event  
marked the first marriage ever  
held in Santa Ana's fire hall, ac-  
cording to local firemen, and the  
cupid in tying the knot to  
Edgar Robertson of Huntington  
Beach and May Gage of Long  
Beach.The couple first applied for a  
marriage license at the court-  
house here early yesterday morn-  
ing. But the prospective bride-  
groom was told he did not look  
as if he had reached the legal  
age, and he was asked to prove  
he was entitled to wed.After many hours speeding  
through the country in his faith-  
ful "Lizzy," Robertson returned  
to Santa Ana at 10:30 p. m. with  
the proof; namely, his mother,  
Mrs. M. Harris of Huntington  
Beach. Mrs. A. Culver of Sausalito,  
Mrs. Violet Baird of Long Beach,  
and Mrs. Ida Woods and Austin  
Woodford, both of Santa Ana.But the courthouse was locked  
and the county clerk could not  
be found.Someone told the wedding  
party that the clerk had a rela-  
tive at the main fire station who  
could find the man to issue a  
license. To the fire hall the  
"Lizzy" rambled.When a knock was heard at  
the doors of the station every  
fireman was into his clothes in  
a wag of a lamb's tail, so they  
declared. The dilemma of the  
wedding party was told.Fireman Boyd Sleeper then  
forcibly compelled his brother-in-  
law, Deputy County Clerk Ken-  
neth Morrison, to go from his  
home to the courthouse and issue  
the sacred document.City Recorder W. F. Heathman  
was pulled out of bed to perform  
the ceremony.While the words were being  
pronounced, dozens of comic  
signs were being plastered over  
the "Lizzy" and covebells were  
being tied under the car.While a fire siren softly play-  
ed the wedding march, the bridal  
party trailed out of the fire sta-  
tion under a shower of rice and  
a few other human commodities,  
and then the covebells clanked  
down the street while all the  
young bachelor firemen heaved  
heavy sighs.

And that's that.

Would Quiet Title  
on H. B. PropertyProperty at Huntington Beach  
was concerned today in a suit to  
quiet title, on file here in the su-  
perior court. John Heaston was  
plaintiff in the action, in which W.  
J. Wellman, the Huntington Cen-  
tral Oil company, the Julian Oil  
Well Pump company, W. T. Smith  
and others were named defend-  
ents. Attorney A. J. Thiedelke,  
Huntington Beach, represents  
Heaston.Buena Park Cafe  
Theft InvestigatedDeputies from the sheriff's office  
here today were investigating a  
burglary at Buena Park where  
thieves succeeded last night in en-  
tering the restaurant of Jack  
Grady. They stole \$30 in change  
and a large quantity of cigars, ci-  
garettes and pipe tobaccos, accord-  
ing to Sheriff Sam Jernigan.It was reported that the officers  
had several good clues.His Wife Deserted  
Him, Husband SaysIn a divorce complaint on file  
today in the superior court here,  
Jose Silva of Anaheim charged  
that his wife, Amelia Silva, desert-  
ed him in Anaheim, January 9,  
1919. They had been married less  
than a year at that time. Attorney  
Leonard Evans of Anaheim ap-  
pears in the case for Silva.Wife Seeks Decree  
on Desertion PleaDesertion was charged here to-  
day in a divorce action on file in  
the superior court, where Eva M.  
Hunt, Santa Ana, seeks a decree  
freeing her from Earl M. Hunt.  
The Hunts married in Minneap-  
olis, Minn., in 1902, and separated  
July 5, 1923. Attorneys, Head, Ru-  
tan and Seovel are counsel for  
Mrs. Hunt.Jail Man, 47, in  
Statutory CaseUnable to post \$5000 cash bail  
fixed by G. W. Warner, justice of  
the peace at Huntington Beach,  
where he was arrested on a statu-  
tory charge, Charles P. Clark, 47,  
and said to be wealthy, was lodged  
in the county jail here today, pend-  
ing a preliminary hearing, set for  
August 11.57 SHIPS ENTER PORT  
VANCOUVER, B. C. — Fifty-  
seven deep sea ships, net tonnage  
174,870 tons, entered the port of  
Vancouver during the first twenty  
days of June this year, accord-  
ing to a statement issued by the  
harbor commissioners. This does  
not take into consideration the  
heavy tonnage of coastwise ves-  
sels entering and leaving the Nar-  
rows on coast runs.pieces of the California Avocado  
Growers' association. This after-  
noon the growers were touring the  
county, visiting several large avo-  
cado groves.Voters on Final  
Day of Registry  
Rush to OfficesWarning that registration for  
the August primary election would  
close today had its effect upon the  
voters of the county, today's rush  
at the county clerk's office demon-  
strated.Registrar Backs and his aides  
were kept busy throughout the day  
handling the stream of eleventh  
hour registrants.Instead of closing for the day at  
noon, as customary, Backs' office  
reopened at 1:30 p. m. today and  
will not close until 10 p. m., he  
announced.PLACENTIA AND  
GROVE GIVEN  
SEWER RIGHTPlacentia and Garden Grove san-  
itary districts were admitted into  
the joint outfall sewer district at  
a night 95 per cent of the out-  
fall sewer is held jointly by the  
four original owners while the  
other 5 per cent goes to Placentia  
and Garden Grove. The new mem-  
bers, however, will not have any  
interest in the joint outfall sewer  
right of way.Money for the purchase of inter-  
est in the joint outfall sewer has  
been in the hands of the county  
treasurer for some time. It was  
posted by the two towns as a guar-  
antee of good faith.Work of connecting the sanitary  
district of Placentia with the out-  
fall sewer is already under way and  
it is understood that Garden Grove  
will begin connecting work next  
week.The trustees from Santa Ana  
who attended last night's meeting  
were President J. W. Tubbs, Nat.  
H. Neff, George McPhee and C. H.  
Chapman, City Engineer.Knox and Attorney Clyde Bishop,  
both of Santa Ana, the latter rep-  
resenting Placentia and George  
Socille, representing Garden Grove,  
also attended.

## Movie Chatterbox

The celluloid industry has  
caused Hollywood to become the  
world's greatest emotional labora-  
tory.Lips and saw are used upon  
the public while experts check the  
reactions to each emotional in-  
cision.Instantaneous pulsation of the  
box office was noticeable when li-  
beral doses of the he-man type of  
hero—Francis X. Bushman, Thom-  
as Meighan, Bill Hart, etc.—were  
administered. A heart fluttering  
as intense as to border upon pros-  
tration followed Valentino and his  
train of sheiks; Charles Ray and  
the boyish school got good re-  
sponse—and yet the experts were  
not satisfied.The answer is Adolphe Menjou.  
So gradual has been his ascent,  
so unattended by blare of press  
agent trumpeting that recourse to  
his fan mail is necessary to re-  
alize that the peace of American  
manhood is threatened by this new  
character of "mental sheik."Popularity Growing  
Yet such is the case. His grow-  
ing popularity may soon establish  
a new demerit in masculine  
standards; may cause us to con-  
vert our bell-bottom trousers into  
stiffly correct high collars and un-  
wrinkled bow ties; may make us  
smile at the peace of our women  
instead of beating them about  
the head when they refuse obedi-  
ence.Menjou typifies the unruffled  
lover, the blasé captivator of wom-  
en, the pursued rather than the  
pursuing, the superior whose indif-  
ference plagues the vanity of the  
opposite sex until any effort is not  
too great if they can awaken this  
man to some show of emotion.  
That, gentlemen, is the predicted  
1925 model!"Much of my fan mail comes from  
young ladies of the 'Sheba' age,"  
admits Menjou, "but the vast bulk  
of it comes from ladies more ma-  
tured, the housewife of 30 to 40, and  
of even riper age."Must Know Women  
"Most essential," thorough  
knowledge of women," he declares.  
"You are to be their master be-  
cause you understand them so well,  
and they understand you so little."  
"Every action of yours is calcu-  
lated, result known before the ac-  
tion is started.""Always deferential, but in a  
strictly concealed condescending  
manner."  
"Always correctly and faultlessly  
dressed, which implicitly demands  
the same of them."  
"Always do exactly the right  
thing; be thoroughly at home in  
cafe, club, or at entertainments of  
all natures."  
"Above all, let each of your ac-  
tions revolve around a studied in-  
difference."Played With Doug  
Menjou, through a series of pic-  
tures beginning with Douglas Fair-  
banks' "Three Musketeers," and  
continuing through two recently  
completed Paramount produc-  
tions, "Open All Night," and "The  
Fast Set," has come to be known  
as the most accomplished French-  
man of Pilmom.But let Old Glory wave, he was  
born in Pittsburg, Pa., received his  
education in American schools, and  
has to go further back than his  
generation to account for the  
Frenchness of "Adolphe Menjou,"  
his private as well as professional  
name!SPOT DANCE  
Sat. night, July 26, Newport  
Beach, over Bath House.

Radio Supplies at Hawleys.

THREATS MADE  
BY OFFICIALS.  
COURT PLEAUpon the assertion in affidavits  
by B. R. Belden that he had been  
coerced by Fullerton officials into  
pleading guilty to three crim-  
inal charges, upon which he was  
fined \$100 and sentenced to serve  
ninety days in the county jail,  
the hearing of his appeal was  
court, having been continued late  
yesterday until next Friday.Belden's appeals from the three  
judgments pronounced in Full-  
erton June 22 by Acting Justice H.  
E. Hart were before Judge Z. B.  
West in the superior court yester-  
day. Affidavits had been filed by  
Belden, stating that threats  
and coercion had induced him to  
plead guilty to the charges. The  
hearing was continued in order to  
permit the filing of counter af-  
fidavits denying the charge of  
coercion.Justice Hart fined Belden \$50  
on a charge of failing to heed an  
officer's siren, another \$50 on a  
charge of reckless driving, and  
added a sentence of ninety days  
on a charge of transporting liq-  
uor.Attorneys Andreani and Haynes  
of Los Angeles represent Belden.LIBERALS BALK  
OVER BRITISH  
NAVAL PLANSLONDON, July 26.—For its fail-  
ure to respond wholeheartedly to  
the American congress' offer for a  
second conference looking toward  
world-wide and proportionate dis-  
armament by land and sea, the  
MacDonald government gets a ter-  
rific hiding in a manifesto issued  
here by thirty-six prominent mem-  
bers of the Liberal party.Neither Mr. Lloyd George nor  
Mr. Asquith was asked to sign the  
manifesto—lest British public opin-  
ion interpret it as a purely political  
move—but it is understood that the  
two leaders thoroughly approve of  
the protest—which is aimed pri-  
marily at the five new cruisers  
proposed by the MacDonald gov-  
ernment—and intended to see the  
issue well ventilated in the house.Noted Signers.  
Among the signatories are such  
representative Liberal M. P.'s as  
Commander Kenworthy, Sir John  
Simon, C. F. G. Masterman, Hon.  
Harcourt Johnstone (nephew of  
Gifford Pinchoot) and Lady Ter-  
rington. Says the protest:"Instead of formulating plans for  
a reduction of armaments in ac-  
cordance with their own pledges,  
His Majesty's government, on tak-  
ing office, promptly seized upon  
unemployment as a pretext or jus-  
tification for enlarging the British  
navy. This new justification for  
and expansion of armament is so  
far the Labor government's only  
contribution to the cause of inter-  
national disarmament.""We urge that the program of  
cruiser building which has, in fact,  
not yet begun, should be reconsider-  
ed and the money applied to  
useful or productive purposes or  
to the reduction of taxes.""The United States government  
introduced a naval bill, authoriz-  
ing the laying down of no fewer  
than eight cruisers at a cost of  
\$125,000,000. That bill has now  
been voluntarily suspended in or-  
der to make possible a new inter-  
national conference; hence a new  
opportunity presents itself to Great  
Britain to further the peace of the  
world."Starts Naval Race.  
The manifesto asserts that no  
sooner had the Labor government  
demanded authority to lay down  
five new cruisers than Paris,  
Rome and Tokio instantly respon-  
ded with new cruiser programs.Only 5 Years Old  
But She's Pianist  
Of Note, SwimmerRobert E. Brown, local industrial  
realtor who recently moved into  
the residence at 614 South Ross  
street, today had notified the police  
his home was entered by burglars  
last night between 7:30 and 10  
p. m.So far as had been learned today,  
only a small amount of jewelry was  
stolen. Brown reported.The robber entered the house by  
cutting the screen over a side win-  
dow and by forcing the window.  
The thief left through a rear door,  
taking the key with him.Marie Louise Bobb, just 5, of  
New Orleans, called the "most per-  
fect child in the South," is a ver-  
satile little maiden. She took music  
lessons for a year and now plays  
Mozart and Beethoven composition.  
She is an excellent swimmer, too.Asks Court Void  
Sale of PropertyAsking that an agreement for  
the sale of property in Anaheim  
be declared forfeit and that the  
premises be restored to him, Fred  
Hess was plaintiff today in a suit  
on file in the superior court here  
against J. E. Fisher, who purchas-  
ed the property from Hess. Hess  
alleges that deferred payments on  
the place have not been made.Hess also figured in another suit  
to quiet title against him here late  
yesterday by Leopold Bockelose,  
who was represented by Attorney  
Fred Forgy of this city. The prop-  
erty concerned was also located in  
Anaheim, Hess being sued as ex-  
ecutor of the estate of the late  
William Hanke.91.667 BUICKS  
ARE OWNED IN  
CALIFORNIAMembers of the extensive Buick  
dealer organization in California  
have had unusual cause for jubi-  
lation. With representative models of  
the new line of Buicks now scat-  
tered from one end of the state to  
the other, causing the most enthu-  
siastic reception ever accorded this  
popular car, they feel justified in  
looking forward to a year of un-  
precedented prosperity.Now comes the figures showing  
the totals of the various popular  
passenger cars registered in Cali-  
fornia. These statistics, compiled  
by the state division of motor ve-  
hicles at Sacramento, show that  
for automobiles listing at the re-  
spective factories in excess of  
\$550, the Buick leads the field with  
91,667. Ford and Chevrolet are the  
only cars ahead of the Buick and  
they sell for less than half the  
price of the Buick. Buick's two  
nearest rivals have total registra-  
tions of 77,237 and 66,692 respec-  
tively.Fundamentals Unchanged  
"Leadership in this instance  
comes by virtue of Buick's consis-  
tency in building an outstanding  
line of automobiles year after  
year," said J. W. Tubbs of the Reid  
Motor company. "It would take a  
person with a long memory, indeed,  
to recall when the fundamental en-  
gineering principles of the original  
Buick six were changed. There  
has been consistent refining and  
improving, but the basic ideas back  
of the Buick six remain the same.""In spite of the fact that there  
has been constant and radical me-  
chanical innovations in automobile  
engineering, Buick has kept far  
ahead from drastic changes. This  
does not mean, however, that  
Buick engineers have not been pro-  
gressive. The reverse is true, as  
witness the fact that 500,000 came  
to Buick showrooms to see the new  
Buicks on July 1. It can well be said  
that no new automobile stimulates  
greater interest than the coming  
of a new Buick."Deliveries Announced  
As further evidence of the popu-  
larity of the new Standard and  
Master sixes, the Reid Motor com-  
pany today announced deliveries  
made since July 1. These follow:Sidney Allender, E. M. Roe, John  
Jansma and V. Barnhill, Santa  
Ana, Master six touring; C. V.  
Cook, Santa Ana, Master six road-  
ster; Dr. F. W. Slabaugh and Grace  
L. Gunner, Santa Ana, Standard  
six sedans; Lee Buck, Master six  
sport touring; Charles Hutson, Ot-  
to Peterson, R. W. Palm and Mrs.  
C. K. Moses, Standard six touring;  
Fred Grote, Orange, Master six  
touring; J. P. Boring, Orange,  
Standard six touring; Edd Win-  
dolph, Orange, Master six touring;  
H. S. Sherman, Balboa, Master six  
touring; E. C. Graves, Huntington  
Beach, Master six touring, and  
Standard Oil company, Huntington  
Beach, Master six roadster.Gems of Little  
Value Are TakenRobert E. Brown, local industrial  
realtor who recently moved into  
the residence at 614 South Ross  
street, today had notified the police  
his home was entered by burglars  
last night between 7:30 and 10

## APPEALS AUTO SUIT AWARD MADE HERE

L. R. Huber of Fullerton having won a court victory over George Owen following dispute over the sale of a commercial car by Huber to Owen, the latter had today filed his appeal in the superior court here from a justice court judgment of \$248 in favor of Huber.

Last May, Huber sold the car to Owen. In his complaint against Owen he stated that the latter had paid \$10 cash on the \$800 purchase price and had written a check for \$290.

According to Huber, Owen returned the car to Huber and demanded return of his money, saying that a Long Beach man, to whom he had planned to resell the car, did not want it. Huber refused to accept the car or return the money, but Owen left the car with him anyway, Huber stated.

Shortly after the \$290 check was returned to him, Owen having stopped payment upon it, Huber alleged. Huber then advertised a "seller's auction" of the car and sold it at the appointed time to himself for \$50, applying the money on the \$290 claim he held against Owen. He brought suit on the \$240 balance.

In his answer to the suit, Owen declared the purchase price was \$625 and \$235 had been paid in cash. The next day it was mutually agreed that the deal was off and that the \$235 should be returned. Owen alleged, but Huber he said, did not return the money. Owen asked judgment for that amount against Huber.

The trial in justice court at Fullerton resulted in a court award of \$240 and \$8 costs in favor of Huber. Owen then appealed to the superior court.

## Workers' Wages at High Mark in 1923

WASHINGTON, July 25.—The average hourly wage rate for all trades taken collectively on May 15, 1923, was higher in the United States than in any preceding year, according to figures issued by the department of labor. Based on the wages received by 900,000 union workers, the statistics show the hourly scale was 9 per cent higher on May 15, 1923, than on May 15, 1922; 84 per cent higher than in 1917; 111 per cent higher than in 1913; 123 per cent higher than in 1910, and 135 per cent higher than in 1907.

**CREMATION MOVIE SHOWN.** BERLIN, July 24.—The cremation process in a modern crematorium is shown in a film here, produced for the "German Society for Cremation" in its propaganda campaign. Cremation is wide-spread in Germany and several societies are propagating its application as more sanitary than other methods of interment.

Your wife and children will still need three meals a day after you pass on.

## Ranch Home Offers Cool Retreat For Missionary Tea

Over seventy guests availed themselves of the invitation extended by Mrs. L. Sedoris to women of the Spurgeon Memorial church to a missionary tea at her delightful ranch home yesterday afternoon.

The spacious rooms offered a cool retreat while out on the tree-shaded lawn, the children romped and played and had as happy a time as the elders. Mrs. Sedoris had gathered quantities of pink and yellow dahlias from her own gardens for the floral decorations of the home.

She was assisted in her hostess duties by a committee composed of Mesdames Hayward, Graham, Harris, George Dickson, A. C. Williams, Susan Sweet, A. C. Jones, Alice Titchener, C. C. Widney, F. Heemstra, W. N. Martin, R. R. Sevier and J. F. House. All joined in serving refreshing ice cream and cake at the tea hour.

At the beginning of the afternoon, a short devotional service was led by Mrs. J. W. Law and Mrs. A. A. Jones after which little Miss Alice Miller gave two pleasing readings. Phonograph music added to the interest of the afternoon.

## Travelers Return From Eastern Journey

Mrs. F. A. Birchard and Miss Arline Birchard of 401 East Washington avenue, have returned from an extended trip east. They visited in Denver, Colo., where they were very much entertained. Going eastward they stopped for pleasant visits in Topeka, Kansas, Chicago and Battle Creek, Mich., where Mrs. Birchard remained with relatives while Miss Birchard proceeded to Pittsburgh and Washington, D. C.

Miss Birchard was a house guest at the home of a prominent musician in Pittsburgh and anticipates entertaining her in California by another summer.

## Club Members Enjoy Friendly Afternoon

A pleasant afternoon was enjoyed Thursday when the Kill Kare Klub met with Mrs. J. L. Rees at her ranch home near Tustin.

The afternoon was devoted to sewing and friendly conversation and later home-made cake and delicious iced drinks were served. The club members include Thursday's hostess, Mrs. Rees, Mrs. Alderman, Mrs. Albert Brown, Mrs. Roy Brown, Mrs. Will Casey, Mrs. Will Hawkins, Mrs. Knapp, Mrs. Tommy Lacey, Mrs. Walter Wilson, and Mrs. Jim Singletary.

## Altar Society

St. Ann's Altar society met Thursday afternoon at the home of Mrs. Herman Vardi, 1047 West Fine street. The members spent the afternoon continuing preparations for the October bazaar.

The next meeting will be held at St. Ann's parish house, 1239 Orange avenue, Thursday afternoon, July 31 at 2 o'clock.

**St. Ann's Day**  
Today is St. Ann's Day and in honor of the patron saint of St. Ann's parish, open house was held Friday afternoon and evening, at the home of Mr. and Mrs. B. J. Miller, 2217 South Main street. Entertainment and dainty refreshments were enjoyed by a large number of the church members and their friends.

First prize for women at cards was won by Mrs. G. W. Longmire and the men's prize was captured by Mr. Ed Geisel. Mrs. Wagner won the consolation prize.

## Guests Entertained At Yacht Club's Card Luncheon

Quite a guest group was entertained at yesterday's bridge luncheon at the Newport Harbor Yacht club—the third of the series which is proving such a delightful innovation at the pleasant clubhouse on the Bay. The hostess trio comprised Mrs. Clarence G. White and Mrs. H. L. Hubbard of Redlands and Mrs. Donald Fullerton of Riverside.

There were fifty-six guests in all to enjoy the delectable menu served at 12:30 in the main dining room of the clubhouse, where tall spikes of larkspur in varied colorings added a touch of outdoors to the charm of the occasion.

Some of those present preferred a quiet enjoyment of the breeze-swept verandas and the outlook over the bay rather than an afternoon at bridge but thirty-six playtables arranged for bridge while one table was reserved for mah jong since there were a few devotees of the Chinese game present.

Mrs. Derby of Riverside carried off mah jong honors and incidentally an attractive prize while the club prize to bridge players, a set of handsome Madeira tea napkins, fell to the lot of Mrs. F. R. Richardson of San Gabriel. Mrs. H. L. Fleisler of Laguna Beach held high guest score and was awarded the pretty vanity compact.

Mrs. Leonard G. Swales of this city who is spending the summer at "Rackety Coo," the Swales summer cottage at Balboa, entered with a group of friends as did Mrs. Susan Rutherford, Mrs. Mosher and Mrs. J. A. Cranston were among Santa Anans present.

One interesting group was entertained by Mrs. Leonard Jones of Alhambra who will be remembered as Mrs. Ben Turner of this city and whose guests list included a number of the California Yacht club, also Mrs. Frank Smith and Mrs. Piver, wife of Commodore Piver of the San Francisco Yacht club whose yacht, the "Eloise" is riding at anchor in Balboa Bay.

## Business Women's Club

At Monday's luncheon of the Business and Professional Women's club, the July program committee, Miss Teresa McDonough and Mrs. Jewel Warner, will present Robert Brown, a member of the industrial committee of the Chamber of Commerce and associate members of the Jr. Chamber, who will speak on "Industrial Santa Ana."

To Mr. Brown's efforts is due the establishment in this city of what promises to be one of its leading industries, the Standard American Glass company. He also established the Central Manufacturing district and has just subdivided Lloyd Park.

## NAME NEW MEMBER TO DODGE'S BOARD

Present officers and directors of Dodge Brothers, Inc., with the exception of the chairman of the board, were re-elected at the annual meeting of the stockholders, Tuesday, July 15, at 2 p. m.

A resolution was passed abolishing this office, Russell Huff, for nearly ten years chief engineer of Dodge Brothers, was elected as a new member of the board. The stockholders felt that the addition of Mr. Huff to the board would strengthen it materially in view of his long experience as an automotive engineer of the highest standing. He is a former president of the Society of Automotive Engineers and one of the pioneer designers of the industry.

The officers chosen were: President and general manager, Frederick J. Haynes; vice president, Arthur T. Waterfall; treasurer, John Ballantyne; secretary and assistant treasurer, Harry V. Popeney; assistant secretary, R. J. Fry.

The last fiscal year was the largest in Dodge Brothers' history and the first six months of 1924 were greater than any corresponding period in point of deliveries to retail purchasers.

## LAXITY IN SIGNALS BY HANDS SCORED

Regardless of repeated warnings, many drivers fail to give proper hand signals and many avoidable crashes are resulting, according to records of the safety department of the Automobile Club of Southern California. Careless hand signaling, also, is leaving its trail of wrecks.

A hand signal should be given continuously for fifty feet before a turn or stop is made. The arm should be raised high up for a right hand turn; straight out for a left turn; and pointed toward the ground for a stop. Careless drivers are warned that failure to signal properly has made many persons pay for resulting damage.

Mrs. E. Barnes and daughter Pearl, of Pine street, are spending the week at Bakersfield.

Mrs. Austin Jennison of the Daniel studio, Laguna Beach, will leave Monday for Lansing, Michigan, traveling on the Southern Pacific.

Mrs. Walter James, 202 Orange avenue, is leaving for Omaha, Nebraska, via Southern Pacific.

Mrs. Andrew Lykke is expected home from her eastern trip about the fourth of August.

A. G. Thornton and family of Tustin will leave soon for Escondido.

Mr. and Mrs. W. H. Dixon, 1301 Cypress avenue, are returning from Redwood Park, Cal., where

## Artistic Effect In Sun-Flowers For Kansas Guests

The home of Mrs. Robert White on Halladay street was the friendly gathering place for the "Industrious Dames" yesterday afternoon, when equipped with dainty bits of needlework, they met for a social hour.

Mrs. White, in complimenting a group of the members who hailed from Kansas, used sunflowers in a glowing decorative effect. After an interval of sewing, the hostess introduced an amusing magazine game in which Mrs. Effie Hayes won the prize.

At the tea hour the appetizing refreshments were served on individual trays to Mesdames Archie Gorton, C. H. Leamer, Florence Hicks, Frank Woodhouse, Effie Hayes, G. H. Etchison, Herman Smith, Edward Pickering and four club guests, Mrs. David Meyer, Mrs. N. D. Palmer, Mrs. A. F. Schults, and Mrs. C. V. Curtis.

## You and Your Friends

Please Phone or Mail Items

Mr. and Mrs. C. E. Dessery, and Mr. Dessery's mother, Mrs. Josephine Dessery, of 1078 West Second street, left here early today by automobile on a three week's outing to be spent at Crater lake, Klamath Falls and Portland, Ore.

Dr. and Mrs. Karl A. Loerich and children, Esther and Alfred, are again at their Orange street home and Dr. Loerich will resume his practice Monday morning, after a delightful vacation outing at various points.

Two weeks of the pine breezes brought strength to Alfred, the young son of the family who has had a tedious convalescence from a serious attack of typhoid fever. Last week, the travelers spent at San Diego with relatives and friends. During their stay at Pine Crest, they met a number of Santa Anans including Mrs. Turner, the E. B. Tragos and a party of friends, Mr. and Mrs. William T. Elliott and the Charles W. Yonges.

Mr. and Mrs. Marr of 1800 Spurgeon street with their daughter, a physical culture director in schools of New York, now spend the summer with her parents, and her houseguest, will leave tomorrow morning for the Yosemite. They will motor to Merced and take the bus into the park.

Dr. and Mrs. U. G. Littell left early this morning for a motor trip to Yucapa where they will spend their summer vacation and incidentally assist Evangelist W. W. Pace in a series of revival meetings with the Church of Christ in that place. They expect to be away about two weeks.

Departing early tomorrow morning, Mr. and Mrs. Fred M. Robinson of 1625 North Main street and Mr. and Mrs. Eugene Robinson of 1802 Spurgeon street, will motor to the Yosemite for a vacation outing. They will return by the coast route and will visit the big trees. It is their plan to reach Santa Cruz for the final day of the Legion convention.

Mrs. Dwight Chester today concluded her Santa Ana visit with her sister, Mrs. J. H. Walker, 514 East Second street, and other relatives, and motoring to Los Angeles with Dr. and Mrs. Gunning Butler, will spend the weekend with friends, later going to the Ambassador for two weeks' stay ere departing for San Francisco. From the northern city she will proceed across the continent, stopping at various points of interest and return to her home in Washington, D. C.

Mrs. J. H. Walker of 514 East Second street leaves tomorrow for Costa Mesa where she will spend a few days with her daughter, Mrs. Gunning Butler, later going on to Balboa for a week.

Mrs. S. Stein and children, of 1030 West Sixth street, have just returned from a three week stay at their cottage in Balboa. Mrs. Stein is planning on spending the month of August at Murieta Hot Springs.

Mrs. T. Cooke, of 728 East Walnut street, spent the week end visiting her son Fred, in Torrance.

Chester Hall of 111 1/2 South Broadway, is spending a few days of his vacation in Los Angeles.

Harry Blackburn and family, who left June 1 for a trip to the east, are now in New York city. Their next trip will be to Niagara Falls.

Miss Alla Neely, who has been with the Western Union, has accepted a position with the Edison company. Miss Neely is this year's graduate of Junior College.

Mrs. E. Barnes and daughter Pearl, of Pine street, are spending the week at Bakersfield.

Mrs. Austin Jennison of the Daniel studio, Laguna Beach, will leave Monday for Lansing, Michigan, traveling on the Southern Pacific.

Mrs. Walter James, 202 Orange avenue, is leaving for Omaha, Nebraska, via Southern Pacific.

Mrs. Andrew Lykke is expected home from her eastern trip about the fourth of August.

A. G. Thornton and family of Tustin will leave soon for Escondido.

Mr. and Mrs. W. H. Dixon, 1301 Cypress avenue, are returning from Redwood Park, Cal., where

## Cool Dishes

**Hot Tomato Sandwich**  
One medium sized tomato, 2 thin slices bacon, 2 thin slices whole wheat bread.

Broil bacon until very crisp. Toast bread. Peel tomato and cut in thin slices. Cover one piece of toast with half the tomatoes, add hot broiled bacon and cover with remaining piece of toast and put in a hot oven to reheat and serve at once.

Total calories, 166. Protein, 24; fat, 51; carbohydrate, 31. Iron, .001 gram.

**New Ice Cream Sauce**  
For ice cream a typical California sauce is made by boiling a cupful of seeded raisins in

twice that quantity of water until they are very soft, when they are rubbed through a colander. Boil the raisin-liquor with two cups of sugar for three minutes, remove from the fire, add the raisin pulp and a half cup of chopped walnut meats. Served chilled, over ice cream, this is a "different" and appetizing touch to an everyday dish.

## A Daily Menu

Breakfast—Shredded pineapple, French toast, maple syrup, poached eggs on toast, coffee.  
Luncheon—Tomato jelly salad, cheese biscuits, cherry puffs, tea.  
Dinner—Lake trout stuffed and baked, scalloped potatoes, beet greens with lemon butter, mold cheese salad, sliced peaches with thin cream, angel cake, coffee.

## Odd Building at Laguna Beach to House Realty Men

LAGUNA BEACH, July 26.—For several days people of Laguna Beach have been watching with interest the erection of a building next to the Raven cafe. Like the beach, where it was built, it certainly is "different" both as to style of architecture and building materials.

The walls and roof are made of patented building material. This is on the order of a wall board, it is lighter in weight, firm and very durable. Strips cut to size were broken at desired lengths and used as shingles, giving the roof a distinctly "jazzy" appearance. The roof has a very decided English slant and a gable artistically frescoed, gives it a very attractive front.

This building will be used as a real estate office by Fred A. Leach and Robert F. Knight. They will handle real estate sales, building loans, rentals and insurance. Mr. Leach is well known in Laguna Beach. He was formerly connected with Roy W. Purpus and was with him for about a year. Mr. Knight was formerly of the J. R. Bracett company of Pasadena, realtors, and is well-known in the southern part of the state. He is also a member of high standing in the Cauldron club of Pasadena.

**LICENSE FULLERTON 'PURPS'**  
FULLERTON, July 26.—Fullerton's canine pet owners today are being called upon to pay taxes or to disown their faithful dogs. The new city ordinance came into effect this morning prescribing a tax of \$2 on dogs of the masculine gender and double that amount on those of the opposite sex.

They have been for two weeks.

Mrs. Hazel Harding, 221 South Main street, will return Monday from Catalina.

J. L. Olsson, 611 West Eighth street, is leaving today for Portland, Oregon, via Santa Fe route.

O. E. Dimmis will return Monday from his vacation at Yosemite.

Mrs. Florence Hawkinson, 412 West Second street, is enjoying a visit of two weeks from her little nieces, Norma and Katherine Lowey of Los Angeles.

Mr. and Mrs. H. C. Dawes, 1413 Spurgeon street, have just returned after spending a month at Big Bear Lake.

Mr. and Mrs. Fred Kirchhofer of 608 1/2 Fruit street are at Long Beach this week.

Walter Fine and family are at home again after a week's stay at the Horace Fine cottage at Balboa.

C. R. Maddux left today for a two weeks' outing at Idyllwild.

George F. Monroe, 1722 Bush street, has returned after two weeks at Mount Baldy.

Mrs. C. H. Brooks, 116 East Sixteenth street, is leaving via Santa Fe, for a visit of about two months with relatives in Chicago and Detroit.

Miss Eleanor Woodford of Los Angeles and Miss M. W. Lee of New York City, are visitors in the home of Mrs. Clarence Gustlin, 816 North Main street.

Mrs. J. R. Randolph of Laguna Beach, is leaving today over the Union Pacific lines for Kansas City, Missouri.

Mrs. Granville Spurgeon, 1402 North Broadway, has returned much improved in health after a visit of several weeks with friends in Hemet.

Mr. and Mrs. W. W. Houseman will leave tomorrow for San Francisco on the steamship Ruth Alexander, and expect to be gone about two weeks.

Radio expert at Hawley's.

## Recent Bride Honored With Gift Shower at Home of Friend

Honoring Mrs. Byron L. Ridenour who, prior to her marriage on Sunday, July 20, was Miss Blanche Chandler, was a miscellaneous shower given Wednesday afternoon when friends and neighbors gathered at the home of Mrs. Elizabeth Erickson, 1041 West Sixth street.

There the charming young bride was showered with beautiful and useful gifts and a happy social afternoon enjoyed. To the strains of "Little Cumbas of Happiness" way was led to the dining-room where a smiling Cupid in the doorway, held ribbons leading to dainty place cards of Cupids amid a shower of hearts.

Rosy garlands suspended from the ceiling, led to each corner of the table while each guest found a favor and a gay little toast to the honoree which they read in turn. The entire house was decorated in the colors used at the wedding and quantities of garden flowers. In the living room, a library table offered a reproduction of the wedding party with a pretty doll bride, her honor maid, flower girls and ring bearer. Appropriate games offered entertainment and prizes were awarded.

Those enjoying the affair were the hostess Mrs. Erickson and the honoree, Mrs. Ridenour together with Mrs. Otto Hoffman, Mrs. S. Morrison, Mrs. Frank Brown, Mrs. J. Chandler, the Misses Gertrude and Bessie Hoffman, Verena and Helen Dallas, Verena Bailey, Dorothy Erickson and Ruth Catman.

## AUTO CLUB NOW HAS 100,000 MEMBERS

Fixing more securely its place as leader among motoring organizations of the world, the Automobile Club of Southern California, which just announced that it has passed the 100,000 mark in membership. A significant fact of this enormous growth is emphasized by the statement that the club yesterday had a membership equal to the entire population of Los Angeles in 1900, the year the club was organized, or 102,479.

No ceremonies marked the rounding out of the six figure membership, although it brought a thrill of gratification to the officers, directors and employees who have so successfully guided the destinies of the huge organization and made its emblem a universal sign of service to the motorist.

Oddly enough, the 100,000th milestone in the history of the organization came on the 30th anniversary of the first successful demonstration of the so-called "horseless carriage." Six years afterward, when the automobile was yet considered in the class of toys and luxuries, the Automobile Club of Southern California was incorporated with 56 members. After nearly 24 years of its existence, it has averaged an increase of more than 4000 members a year, and today there are 29 branches located at population centers through the 13 southern counties of the state, in addition to the million dollar headquarters at Figueroa and Adams streets in Los Angeles.

More than 1000 employees are required to take care of the business of the organization, and 14 of the principal departments give direct service to members and visiting motorists. The club is constantly on the alert to meet all demands relative to touring, signposting, mapping, engineering, legal, theft, insurance, hotels and garages, car forwarding, licensing, outfitting public safety and highway patrol.

While primarily organized to benefit members, the club has been equally active in community building. All Southern California has been served by the organization's broad, impressive policy in promotion of good roads; in urging fair and desirable legislation; in advocating equitable tax measures; in co-operating with national, state, county and community plans for highway development, and in attracting and serving hundreds of thousands of motor tourists that come from all parts of the country.

## HARDWARE BOWLERS TRIM COSTA MESA

Frank Nickey's gang of Nickey Hardware company bowlers increased their lead in the Orange County league by four full points at the Broadway academy last night when they defeated the Costa Mesa quintette 4 to 0.

Nickey led the field himself with a card of 186-171-219 for a total of 576, and an average of 192. The results:

Nickey Hardware Co.	
Nickey	186 219
Bea	133 156
Crawford	203 121
Lane	189 169

## MOTORING DATA COLLECTED BY WOMAN TOUR CHAMPION

Hailed As Leading Tourist  
of United States After  
19 Continent Trips

DRIVES 600,000 MILES

A. A. Pathfinding Auto  
Called Best Equipped,  
Used on Long Jaunts

The leading tourist of America is a woman—Mrs. Stella Seviston of San Francisco.

She is called the "Touring Mother of America."

She and Dan J. Nee, also of San Francisco, have traveled 600,000 miles over all kinds of roads and are now on their 19th trans-continental round-trip tour.

Touring is Mrs. Seviston's job. It has been her job since 1909, when she began with Nee connecting touring information and promoting good roads for the American Automobile association.

Together they have crossed the desert with the thermometer at 120 degrees, built temporary bridges over swollen mountain torrents, threaded their way through seemingly impenetrable forests, fought through snowstorms on the plains but never failed to reach their destination.

The car in which they are touring is said to be the best equipped auto in the country. It is called "Wayfarer IV" and is the official pathfinding car for the American Automobile association. Nee is its designer and driver.

Tips to Travelers  
From past experience in this and former "Wayfarers," Mrs. Seviston has a fund of advice for the new tourist.

Her motto is: "You sing 'America' why not see it?"

"Time is the most important need for a motor trip," she contends. "Don't force yourself to drive like mad—just loaf along, stop at the interesting places and enjoy yourself."

"Of course you will need money, but not nearly as much as you think. You can travel de luxe and spend \$15 or \$20 a day—but you can travel across the country comfortably (a \$2 a day per person. Many tourists do it for less."

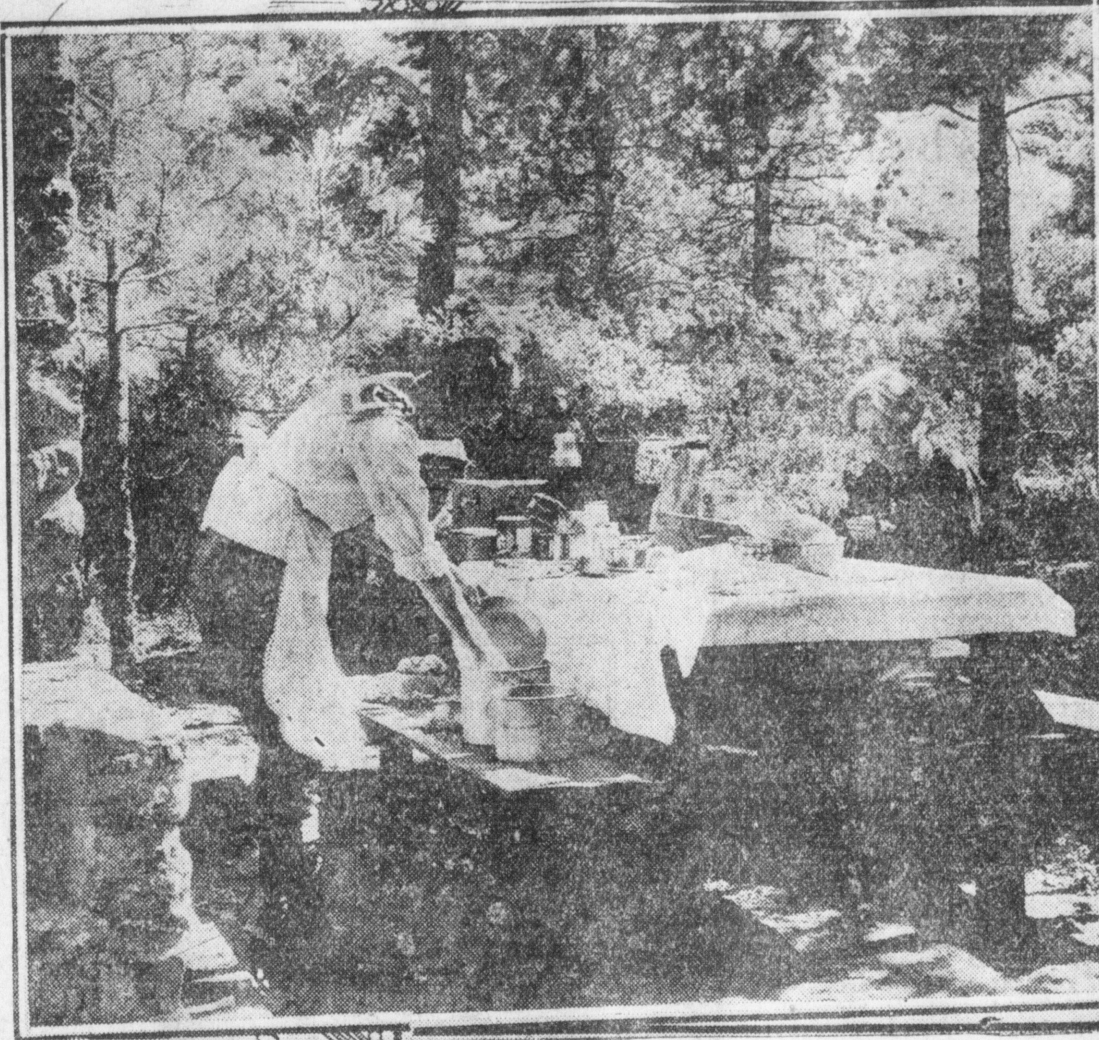

"You can easily drive across the country in three weeks, plus whatever extra time you want for side trips and stopovers."

"Travel as light as you can. Don't overload your car. There are service stations everywhere—even in the desert. It is no harder to drive from New York to San Francisco than from New York to Philadelphia."

"For a long trip it is well to be

(Continued on Page 8)

## ESSEX SIX MOTOR CAMPING PARTY FINDS ENJOYMENT IN TRIP TO BIG PINE DISTRICT

## JEWETT CAR IS SAYS GAS GAVE FIRST IN BIG YUMA RACE

Swishing down Avenue B at a speed estimated at between 90 and 95 miles an hour a Jewett car, owned and piloted by Oscar Nunneley, came in a comparatively easy winner in the 67-mile Fourth of July automobile speed championship of the Yuma valley, at Yuma, Ariz., according to Jack Mabey, local Jewett dealer.

"Thousands of spectators lined the straightaways around the big loop to watch the contest scheduled between five popular makes of cars," Mabey said today. "Only two cars finished the entire course, the other one being the Dodge, driven by Charles Ricks, with Mechanic Fred Ricks in the car, which came in 17 mins. 53 secs. behind the Jewett, which never gave its handlers a bit of trouble over any of the five laps."

"The event was not without its thrills. At 11th and Avenue B the Jewett, while negotiating the turn struck some oil that had been

"More power than I could use," smiled Ralph De Palma, speed king, as he leaped from a Chrysler Six stock touring car at the top of the Mt. Wilson toll road, after setting a new speed record on this narrow, winding, heart-breaking grade.

With De Palma at the wheel, the Chrysler literally swept up the steep grades, around 144 hairpin turns in the remarkable time of 25 minutes, 48.55 seconds—over two minutes faster than the previous stock car record and more than a minute faster than the non-stock record.

Ventura gasoline was selected, after tests of various gasolines, by the Chrysler distributors, as the fuel to put the thoroughbred Chrysler up the mile-high climb in record time.

"Hill-climbing is a real test for gasoline," says an official of the Ventura Refining company, refiners of Ventura products. "What

(Continued on Page 8)

The plucky Essex Six found no difficulty in making Big Pines grade in second gear without once boiling water when a party of campers from the R. W. Townsend Motors company, Santa Ana Hudson and Essex agents, motored to the San Bernardino county resort. Above in the Essex and scenes at Big Pines.

## 254,182 AUTOS CHANGE HANDS DURING 1924

The heavy turnover in second-hand cars in California this year is evidenced in figures released by the division of motor vehicles showing that transfers have been made on approximately 20 per cent of all automobiles, trucks, motorcycles and trailers registered since the first of the year.

The latest figures show a total registration of 1,214,115, inclusive of trailers and motorcycles. Of this number 254,182 have changed hands. Officials of the division say that the percentage of transfers will be very much higher by the end of the year pointing out that the intensive period of registration is now over.

Officials say there is considerable confusion in the minds of the public relative to the law governing the transfer of cars and that many motorists unwittingly violate the law by their failure to report the sale of a car. The law requires that a transfer be reported within thirty days and if a motorist sells his car to another person and does not apply for a transfer within this time the fee is doubled and he must pay \$2 in place of one.

Transfers are made in the spaces provided on the certificate of ownership. No transfer may be made without the consent of the legal owner of the car.

## CLUB'S TRAFFIC SIGNAL PRAISED

Is the automatic signal constructed by the Automobile Club of Southern California at the corner of Figueroa and Adams streets, Los Angeles, a success?

The traffic officer at this intersection has some data from which anyone may draw conclusions. When interviewed he said that in the past five weeks he had given out only five tags, or less than one arrest a week.

The first week the signal was in operation he was compelled to stop an average of seventy-five cars a day. After a few weeks of operation this number is reduced to twelve a day. The traffic commission check showed that 69,797 cars traverse this intersection daily, indicating that only a fraction of 1 per cent of the drivers failed to interpret the signals properly.

## VACATION TOUR ESSENTIAL IS PREPARATION OF CAMPING UTILITIES

Systematic Selection and  
Arrangement of Needs on  
Journey Is Art

MANY TAKE TOO MUCH

Overloaded, Overbalanced  
Cars Tend to Detract  
From Pleasure, View

Inadequate preparation keeps many a tourist from enjoying his trip.

So does overpreparation.

The art of touring lies in a systematic selection and arrangement of necessities for the road and camp so that, by the end of the journey, everything has been found useful and nothing has been missed.

For those who intend camping along the road, this advice transcends all other helps for enjoyment. Too many tourists are seen with overloaded, overbalanced cars, signifying work for the tourist rather than pleasure.

Proper preparation may be assured if the essentials of motor touring and camping are considered.

Causes for Motoring.

Why do we go on long trips? First, for a change from city life, city atmosphere and city conditions.

Second, for rest and recreation.

Third, to see the country.

Change from city life requires change from our set ways of eating and sleeping. Instead of the prepared steaks and roasts, and many-course dinners, we revert to the simple life with as few courses as of simple food as we can stand.

We find, on touring a short length, that we just naturally turn to the coarser dishes to appease our refreshed appetites. Boiled potatoes, plainly cooked beans, stewed dried fruits, and other such simple dishes are like juicy tenders to our hungered stomachs.

Few Things Needed  
And sleep on a canvas cot, rolled in blankets and lying beneath the stars is more restful after a day's traveling than the rest any bed at home could offer.

But proper preparation must be made for these essentials to enjoy them. As few dishes should be taken as possible. A soldier's kit is handy.

A small oil stove with canned heat may be taken, but it isn't necessary because a camp fire is just as effective and more romantic.

Pots and pans may be bought that fit into one another, so as to take up little room in the tonneau. The food should consist of dried fruits, chocolate and other such emergency rations. What may be wanted for the day's big meal can easily be bought on the way.

Rest Essential

The second essential in touring and camping, rest, cannot be enjoyed unless careful preparation is made. It means systematic packing of things in the car, so that everything is in its proper place and can be located with ease when wanted.

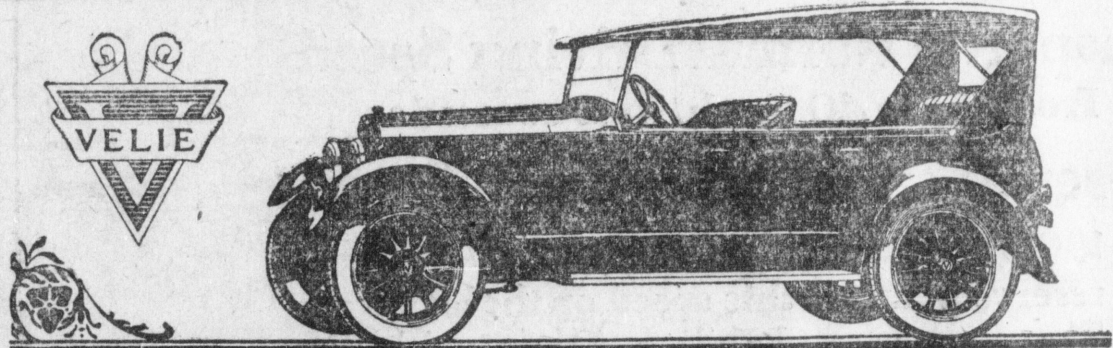

It means deliberate, careful driving without spurts of speed, so that the driver does not enter camp feeling tired and grouchy. It means complete, but not too much, preparation for road emergencies and repairs.

And it requires a good waterproof tent and a bed or cot for each person in the party.

Way to Pleasure

If there are only two or even three, in the party, there are beds that can be stretched over the backs of the car seats, for sleeping within the car. But whatever way is decided upon, ease and simplicity in preparing for the trip and system in pitching camp mean

## NINETY DEGREE V-EIGHT —the Cadillac Principle

More than 20,000 V-63 owners are delightedly revealing to friends what they consider the outstanding automotive achievement of years. Q It is eight-cylinder performance smooth, quiet and vibrationless to a degree clearly and demonstrably unique. Q This harmonized motor performance, achieved for the first time in automotive history in the new V-63, is the result of engineering features to which the Cadillac Motor Car Company holds patent rights.

CADILLAC GARAGE  
COMPANY

Main Street at Second

STANDARD OF THE WORLD

How little do we appreciate our possessions until they are gone! There is some twist in human nature that blinds us to our wealth until, with wealth dissipated, we look back with sorrowful eyes upon wasted opportunities to conserve and utilize that which we carelessly let slip through our fingers.

Probably the only forest of virgin timber within 100 miles of Los Angeles is to be found in the Los Angeles county park at Big Pines. This is just back of Old Baldy and includes several hundred acres of magnificent timber. It is reached easily by motor via Cajon pass and Lone Pine canyon.

The county has provided excellent accommodations for campers, which are free to all. There are stoves of cement and rocks, tables large enough to seat eight comfortably, and level spots for tents and auto parking.

A party of campers from the R. W. Townsend Motors company, local Hudson and Essex dealers, recently made the trip to Big Pines in an Essex Six. They report the roads to be in good condition, and that the only difficulty encountered by the average car is overheating. At San Bernardino, the elevation is 1100 feet, while at Camp Cajon, where the road turns off to the left, an approximate height of 3500 feet above the sea is reached. Big Pines lies 15 miles farther up the canyon, at an elevation of 6800 feet, which makes a climb of 3500 feet in that distance.

The Essex coach took the entire grade in second gear without once boiling water. When it reached the summit the motometer registered "summer heat" which is exactly correct for efficient operation.

The county, according to W. L. Wadsworth, park superintendent, has just appropriated enough funds to allow the construction of 100 more camp sites, with tables and stoves. These sites will permit the population of a small city to be camped without crowding.

## The First Car in America to Standardize on Balloon Tires and 4-Wheel Brakes

Introducing the combination of Balloon Tires and 4-wheel brakes and the first American car to be designed with these features embodied—the Rollin created a style that has swept the country in less than a year.

This foresight on the part of Rollin H. White, designer of the Rollin, his knowledge of motorists' desires and his eagerness to incorporate every known advancement is also shown in numerous other features of this most advanced car of the year.

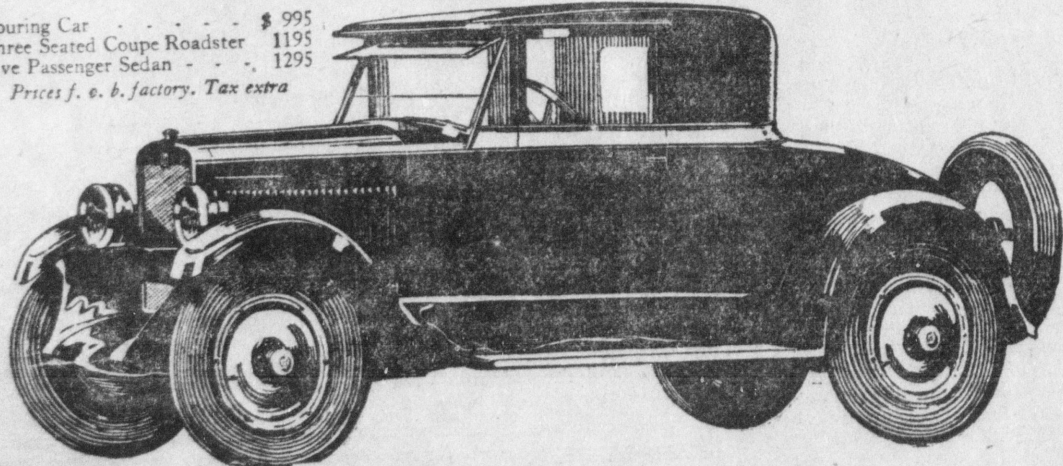

These features are:—European type, high compression motor; free from vibration be-

cause of precise static and dynamic balance of 4-bearing crankshaft and the aluminum alloy pistons and connecting rods.

4-bearing crankshaft; operation smoothed and maintenance minimized by a perfected system of force-feed lubrication; carburetor and manifold refinements that make possible 25 to 30 miles on a gallon of gasoline; and a transverse rear spring that eliminates side-sway and keeps the car on an even keel.

A ride in this remarkable car is yours for the asking.

## JEWETT CAR IS FIRST IN BIG YUMA RACE

(Continued from Page 7)

spilled on the pavement and skidded broadside for a distance of about 75 feet. Spectators held their breath, expecting the machine to turn turtle, but Nunneley managed to right and continued on his way. That was in the third lap, when the Jewett completed the 13.4 miles in 11 mins. 2 secs. The best time of the Jewett was in the final lap, when the time was 10 mins., 48 secs.

**Thrillers in Third Lap.**  
"There was another thriller in the third lap. Nearing Payne's corner the Hudson, fourth car out, was making strenuous efforts to pass the Dodge. It beat the Dodge to the corner by 8 secs. and gained 52 secs. on the Dodge entrant. "The Dodge had exceptionally had luck in the fourth lap, breaking a valve and necessitating a stop for repairs and for the replenishing of its oil. Just prior to the race the Dodge was thrown out of commission by the breaking of a valve. All the mechanics of Yuma pitched in with Charles Ricks and affected repairs. This break was the cause of the two-hour delay of the race.

"The race in the fourth lap became more and more a tug of war between the Hudson and the Jewett, with the Jewett having the better of the argument, according to the official time, which showed that the Jewett was ahead of its nearest rival by about 15 secs. on each lap. These two were thrilling the crowds on the last stages of the fourth lap when the Hudson went out of the running and could not finish.

"The winning car was sent down the final stretch at a terrific pace, the last lap being timed at 10 mins., 48 secs. The official time for the winner was given as 55 mins., 21 secs.

**Handled Car Well.**  
"Nunneley handled the old Jewett to perfection. Never had a bit of trouble with it. The motor was in as good order at the finish as when we started. "Nunneley declared after the race that he held the Jewett 15 miles in reserve all the time. Prince's corner was negotiated at an average of 45 miles an hour; Patterson's at about the same pace, while the racers slowed to about 25 miles an hour at the other two bends. "The day was one of victory for the Jewett, which also carried off the stock car race over the mile course, at a speed of 1 min., 11 secs."

## HAS MORE POWER THAN NECESSARY

(Continued from Page 7)

De Palma needed was quick starting, instantaneous pick-up coming out of the curves, and abundant power. He found all these qualities in 'Ventura.' And by the way, it was regular, commercial Ventura gasoline—not a specially made product for the run. Every 'Ventura' service station and garage carries the same grade of gasoline that De Palma used. Consequently, every motorist can utilize and enjoy the same qualities that made it possible for the Chrysler to break the Mt. Wilson climb record. Quick starting, instantaneous pick-up and abundant power—made possible by complete vaporization of Ventura gasoline in the cylinders—mean comfort and economy to every motorist who uses it."

## USE GREAT CARE IN TOUR PREPARATION

(Continued from Page 7)

most for a restful, healthful sleep. If these essentials are carefully prepared for, the third may be fully enjoyed. Many a tourist may be seen rushing along country roads by day and preparing the next day's trip at night, so that it is impossible to enjoy the beauties of the country.

He who doesn't pack his equipment properly and pitches camp without system or forethought, finds he has to devote nearly all his "leisure" time to this operation.

The result is loss of the enjoyment he went out to seek.

## WOMAN COLLECTING MOTORING DATA

(Continued from Page 7)

provided with a shovel, skid chains and a tow rope, and three one-gallon cans filled with gas, oil and water. Take a large thermos bottle for drinking water and a few packages of crackers and cans of corn and beans for emergency in case of a breakdown.

"In case of an accident, don't leave your car without some one in charge. "Never pick up strangers!"

## Open Market to Noon Tomorrow

An error in the advertisement of the Orange County Certified Car market appearing in Friday's Register made it appear that this concern would be open until noon today, Saturday, whereas the firm desired the public to know that its place of business would be open until noon tomorrow, Sunday.

## News Briefs From Today's Classified Ads

## Avocado Men in County to Hear Talks by Experts

ORANGE, July 26.—Orange county, the greatest avocado producing section in California, is today entertaining the growers of the State Avocado association at Hewes park where 250 growers are gathered for an all-day session getting acquainted and discussing their various problems.

G. E. Hodgins of Los Angeles, secretary of the association, and J. Elliot Coit, citrus expert and author of several books on fruit raising are present and were expected to talk to the growers on questions of general interest. The morning session was entirely informal and the growers discussed together the various phases of their industry besides getting acquainted. At noon they enjoyed a basket lunch in the park and were expected to make use of the big furnace on the grounds in broiling steaks for their repast. Coffee was furnished from the kitchen on the Hewes ranch.

The afternoon was devoted to a business session and at 3 o'clock the growers were taken for a trip through Lemon Heights.

## NEWCOMER BUYS HOMESITE

FULLERTON, July 26.—The sale of a homesite in the 400 block on Jacaranda avenue to J. D. Reeder, a new arrival from Streator, Illinois, is reported today by Irwin and Irwin, local realtors. Reeder has come to Fullerton to assume a position with the Western Glass company, which is establishing a large \$35,000 factory here on the city's industrial tract. He plans the erection at once of a six-room bungalow to cost \$4000.

## INTEREST KEEN IN NEW CHEVROLET CAR

Much interest is being displayed in the new Chevrolet model, the

De Luxe touring which is now on display in the salesrooms of the Pashley Motor company on West Fifth street.

"There has been much comment and many rumors recently as to what Chevrolet's new model would be," D. D. Andrews, sales manager said today. "The public need not be in suspense any longer as the

question is answered.

"Since the arrival last week of one of these newest models at the Pashley Motor company, local Chevrolet dealers, there has been interest displayed by the automobile public. It is evidenced by the many persons who have called at the showroom to inspect the new car now on display."

## DEHCO COATING STANDS EVEN FIRE TEST

That an automobile can be finished in a coat that cannot be damaged by mud, acid, hot water or even blazing alcohol is almost beyond belief but such is the claim of C. L. Newport for his Dehco baked enamel process. Newport has installed big bake ovens and other Dehco equipment at 417 West Fifth street and beginning Monday of next week will be ready to accept cars for enamelling.

Speaking of the Dehco process, Newport stated:

"Everybody knows that baked enamel such as many manufacturers put on the fenders of their cars is far superior to a paint job as it will withstand wear and tear for many times as long as paint. Heretofore a baked enamel coat has been an expensive thing to buy for the family car and a great inconvenience has been occasioned by the fact that several weeks has been consumed getting the car enamelled, due, in part, to the fact that all cushions, tops, tires, etc., had to be removed. This was necessitated by the high temperature of the old style baking ovens, the cars being baked at a temperature of from 300 to 400 degrees. All that is changed now by Dehco process. In this process the enamel is baked on at a temperature of 165 degrees which is so low that cushions, tires and tops do not have to be removed and yet are not damaged at all."

According to Newport, Dehco baked enamel will stand up under every test that any other auto coating can withstand and in addition is not damaged by having blazing alcohol poured on it, a test that several other much advertised coatings will not stand up under as they are of a celluloid composition.

A feature that is unique with Dehco is that the enamelling can be done in any color scheme. Under the old baking process the high heat destroyed the pigments, consequently only black was used. With the low temperature in the Dehco bake ovens any color can be utilized.

The Dehco is not a new process as it has been used for six years and there are now 200 Dehco plants in operation in the United States. According to Newport when he became financially interested in the Dehco process he was offered his choice of Pasadena, Long Beach, San Diego, Sacramento, Fresno or Bakersfield as cities in which to operate but chose Santa Ana with Orange county as his territory because of the big future he believes is ahead of this region.

## ASKS CUT-OUTS CLOSED DURING FIRE PERIOD

An appeal to motorists of California to refrain from the use of muffler cut-outs while driving on roads running parallel to grain fields or through the mountains, because of the danger of fire, was contained in a statement issued today at the offices of the division of motor vehicles.

The appeal follows reports to the division from W. B. Rider, deputy state forests, that a number of serious fires have been traced to flying sparks caused by driving with open mufflers. The statement said:

"The attention of the California motoring public is called to the grave danger of fire caused by driving through heavily forested areas in the mountains or on roads running through grain land and brushy country with open mufflers. Explosions of the engine form sparks of red-hot carbon which may be deposited on inflammable material. Grass fires that spread to adjoining grain fields are known to have been caused in this manner."

"Experience has shown that it is possible to operate an automobile successfully under every condition without the use of a cut-out. Motorists are therefore urged to refrain from its use until such time as the fire menace to California's forests and fields has passed."

New stock fishing tackle. Hawley's.

## ORDERS FOR JORDAN EIGHT CAR POUR IN

The announcement of the Great Jordan Line Eight has resulted in an increase in Jordan six-cylinder business in virtually all the big cities of the country, according to Otto Kolberg of the Orange County Garage company, local Jordan distributors.

"The news that we were going to come out with a line Eight

spread rapidly before we were able to announce the new car," said Kolberg. "Naturally, a good many people who were about ready to purchase six-cylinder Jordans wanted to know what the Great Line Eight was going to look like and what it was going to cost, before buying."

"Of course, we know that the Line Eight was a larger, more powerful and distinctly higher priced car but we could not tell the public so until we were in a position to announce the new job."

"Ever since the Great Line Eight was announced orders for it have been coming from all over the country, but at the same time

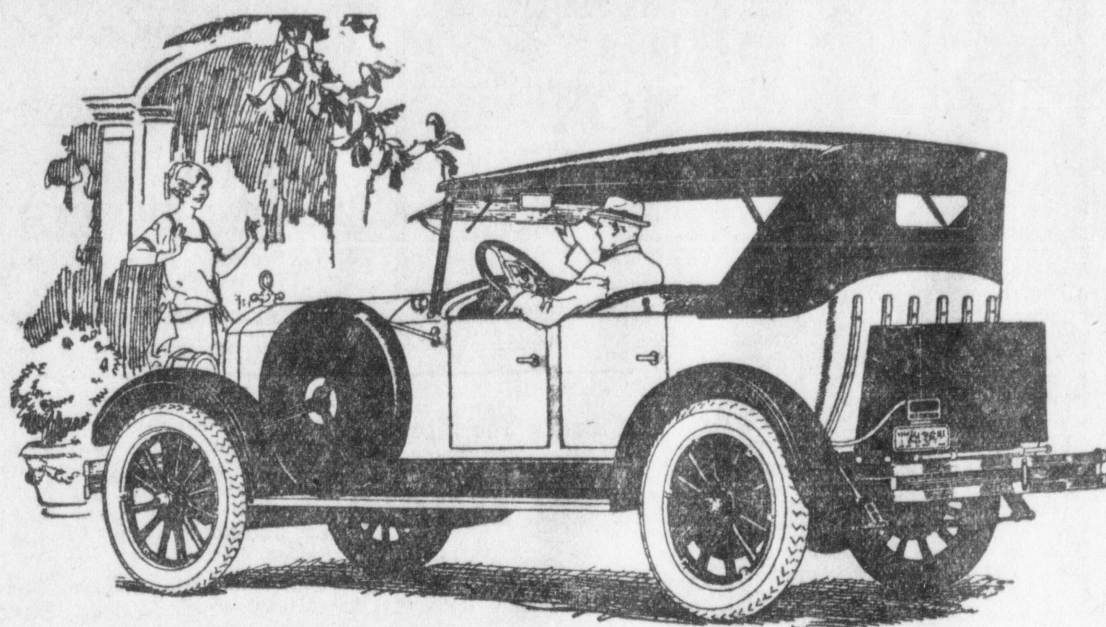

we have received an unusually large number for our six-cylinder car."

"It will be the policy of the Jordan company to build both sixes and eights covering a sufficient price range so that anyone who wants an automobile in the fine car field may have a Jordan that will fit his particular requirements."

Kerfoot's Gene Morris Auto Painting Plant, 410-412 W. 5th St. have satisfied 138 car owners to date.

## Unparalleled FINANCIAL STABILITY

Another vital reason for the huge success of

# NASH

### "FINANCE"

#### NOTE:—

A—Largest percentage of current assets to total assets of the 10 largest auto manufacturers!

B—"Good-Will" not even carried at a single dollar on financial statement!

C—Monster resources with no bank indebtedness, no bond issue and not a dollar owed except current monthly accounts payable!

Under the heading of "Finance," the Nash factory officials, in a communication just issued to their dealers, give the following resume which we consider owners and prospective owners also will be interested in—

"The latest NASH statement shows \$39,538,193.69 in total resources. Of this huge sum, \$22,477,737.40 is in cash in banks, on hand, and in government securities. There is no bank indebtedness, no bond issue, and not a dollar owed aside from current monthly accounts payable of \$3,372,814.98.

"Further than this, an analysis of 10 of the largest automobile manufacturers, including Ford, shows that NASH has the largest percentage of current assets to total assets. The NASH percentage is 76%. The next largest of these 10 is 64% which is the Ford ratio. The average ratio for the 10 including NASH is 49.8%. Contrast that to the NASH 76%.

"Also—NASH does not carry good-will at even \$1 on its statement. Only two of the others can say the same. Seven carry good-will at figures ranging up to \$25,000,000. The total good-will item of the seven is the stupendous sum of nearly \$100,000,000.

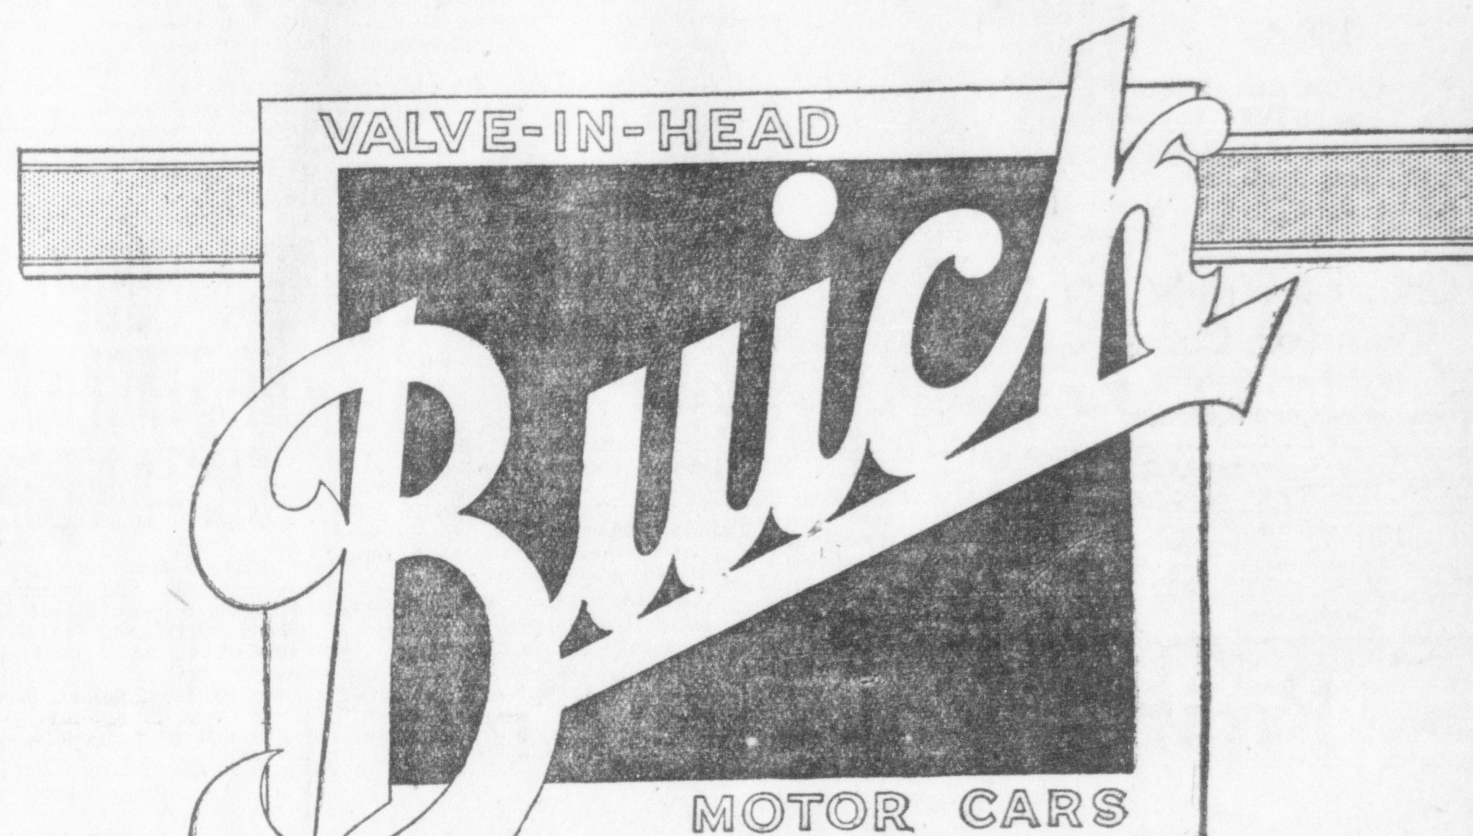

"Comparatively speaking, there is no company in the industry in as admirably liquid condition as NASH or one occupying a more solidly entrenched financial position."

This vast financial strength of the NASH factory is responsible for the exceptional excellence of the NASH car—thus the most automobile for your money because NASH CAN AFFORD TO PUT IN THE BEST!

Do not BUY ANY CAR—IN ANY CLASS—AT ANY PRICE until you have had a demonstration in a Nash automobile.

## SLOT MACHINES LEAD TO HOT WORDS AT NEWPORT BEACH; "BUCK" PASSED TO TRUSTEES

NEWPORT BEACH, July 26.—Slot machines, complaints of their use by minors and the allegation that they were gambling devices, furnished a round of pyrotechnics at the meeting of the Board of Trustees last night.

City Marshal J. A. Porter started the fun when he read a protest that the slot machines were not paying a license into the city treasury. At this point Attorney L. A. West of Santa Ana declared that the instruments were vending machines, this contention also being asserted by Trustee Fred Young, who stated that the machines furnished candy of quality and that merchandise was given in exchange for the brass checks received from winning. Mr. Young stated he had one of the machines in his place of business.

City Attorney Clyde Bishop asserted that the merchant was gambling. Mr. West said he was not and that an article of value was given.

Mr. Bishop declared that the machine was in no sense a vendor of candy, except when

money was played, and that when checks were played, and no candy was given, that the element of chance entered into it.

George Peabody entered the discussion by declaring that children played the machines, not for the candy, which they throw away, but to win something and that he saw a 14-year-old child lose 70 cents in a few minutes. He believed it was a menace to minors.

Low Wallace also got into the argument when he declared it was also a menace to the old, as he had seen many elderly persons lose their money.

Mr. West then stated that the persons he represented would be willing to pay a license within reason, like other concessions where "games of skill" are enjoyed, but Mr. Bishop disagreed with him and declared his willingness to "take him on" in a legal battle.

The matter was finally referred to the committee of the whole.

## CLOSED BEACHES OBJECTED TO BY ATTY.

NEWPORT BEACH, July 26.—That serious inroads are being made into the public's use of Orange county's beaches, was the statement made by City Attorney Clyde Bishop to the board of trustees at its meeting last night.

The discussion arose when the question of abandonment of Ocean avenue on Corona Del Mar came up. Mr. Bishop stated many of the leading citizens of Santa Ana and other portions of the county had asked him whether this abandonment meant closing that highway to the public. Trustee H. Cardozo Sloan explained that the abandonment would not in any manner interfere with the rights of the people; that an agreement was being made with the W. H. Sparr interests, who seek to develop that portion of the Palisades to not only have a better road but more beach line would be available to the public through dedication by that concern.

"I am mighty glad to know that," said Mr. Bishop, "because it is coming to a pretty pass on this coast when the public cannot have access to the ocean and the beaches. In and around Dana Point, one of the most beautiful historic spots in the state, trespassing signs have been put up barring the public from the shore line. In other sections of Southern California the same hindrance applies and I feel that some of us should devote our efforts toward protecting the rights of the plain citizens who have not means to combat such an evil."

So far as Newport Beach is concerned the entire seven miles of ocean front belongs to the city, which has steadfastly refused to give or permit its use by private firms as against the free use by the public.

Russick has chosen for his first two talks, "Too Fat? How to Reduce" and "Too Thin? How to Add Weight". Radio fans are being urged to listen in on these talks, which will be short, snappy and authoritative.

## WEIGHT REDUCTION TALKS ARE BILLED

KFAW, The Register radiophone will present R. R. Russick, physical director of the Santa Ana Y. M. C. A., in a series of talks on "Weight Reduction". These talks will be broadcast from The Register studio on Tuesdays and Thursdays at 4:45 p. m., beginning next week.

LEASES HARBOR BUILDING  
BALBOA, July 26.—I. Jacobson, the Balboa furniture man, has just closed a five-year lease on the two-story brick building at Fifteenth and Central, with J. P. Greeley. This building has been in disrepair for some time and has been put in condition for rental purposes. A portion of the lower floor is used for a furniture warehouse, while five apartments are on the second floor. These have been refurbished and remodelled.

when he fell from an oil derrick near Whittier last Sunday. His spinal column was broken. Mrs. Haigh, discolorate with grief, sent a bullet crashing through her heart three hours afterwards.

## FUNERALS HELD FOR MAN, WIFE IN TRAGEDY

FULLERTON, July 26.—Last sad rites were observed at the McAuley mortuary here this afternoon for Reginald ("Rex") Haigh, 23, and his devoted wife, 19, who took her life three hours after her spouse had passed to that bourn whence there is no return because a lonely future without the man she loved so well appeared too dear.

In the presence of a large number of friends of the popular young couple, both being well known and popular, services were conducted by the Rev. W. E. Spicer, pastor of the First Christian church at Brea, over the two coffins that were placed side by side.

The hearse was followed to the Loma Vista cemetery by a long cortege of cars, containing the mourners, among whom were the girl's mother, Mrs. W. L. Osborne of Placentia, sister, Margery, brother, S. W. Gibson of Harding, near Buena Park, and her uncles, Charles and J. C. Sullivan of Brea and J. B. Sullivan of Norwalk. Haigh died shortly after noon Thursday from injuries sustained

center of the Mesa on Newport boulevard.

All the entrants are residents of this section. M. T. "Bronco" Smith, who was barred from the Orange county fair stunts last year on the charge of being a professional, will show a variety of tricks with his artful pony. He is considered one of the best trick riders in the west.

"Wild Bill" Gudman, who claims he can ride any steer on four feet, and "Kid" Triplett, the boy riding wonder, are also down on the program, while Manager Gethins of the riding academy at Newport Beach will enter a number of stunt riders in addition to a number of movie queens now on location at Balboa.

Both Smith and Gudman are arranging to get into the movies. Their ability in doing dare devil feats with animals has already attracted the attention of a number of directors, but they must raise funds to further carry on their work of preparation.

The affair will start at 2:30 o'clock Sunday afternoon.

WHEAT SHIPMENTS TOLD  
CALGARY, Alberta.—Railway companies operating in Alberta shipped a total of 152,615,776 bushels of wheat between September 1 of last year and May 31 of this year. From this must be deducted about 20,000,000 bushels to allow for the quantity received from points in Saskatchewan which are included in Alberta division of the Canadian Pacific railway and to allow also for duplication in handling of grain coming off branch lines to main transcontinental lines.

Radio supplies at Gerwings.

## 1925 CONCLAVE MEET CALLED BY LEGION

A meeting of the executive committee of Santa Ana post No. 131, American Legion, Clyde Whitney, adjutant, said today will be held Monday at 7 p. m. at the Legion Home, for the purpose of determining whether the local post would bid for the 1925 state convention. This year's convocation will be held at Santa Cruz, August 4, 5, 6 and 7.

All members of the Legion, Whitney stated, were being asked to attend the executive committee meeting to discuss whether Santa Ana wants the 1925 convention.

"There seems to be a great amount of opposition," he continued, "to the state convention here next year. Although there has been much talk on the streets during the past several days, this to the effect that the local post would bid for the next convention, so far as the local Legion members are concerned no actual steps have been taken. Most of the talk seems to be done by outsiders who have nothing to do with the Legion decisions, and persons who would not be responsible for the convention in case it was held in Santa Ana in 1925."

**REALTORS ASK  
THAT COUNTY  
BUY BEACH**

Resolutions passed by the Santa Ana Board of Realtors, at its meeting held at noon yesterday at Ketter's cafe, and being discussed today, call for petitioning the county board of supervisors to take steps to purchase the ocean frontage extending from Newport Beach to Laguna Beach, or as large an area as seems practicable.

The resolution, which suggests that the frontage proposed bought extend back in most places to the high bluffs, further asks that this property be set aside to be used as a great ocean-front park for use of all persons for all time.

Private Owners. The reason given in the resolution for such a movement is that "the entire ocean frontage from Santa Barbara to San Diego is rapidly passing into the hands of individual owners by the process of subdivision and the public thereby is forever barred from the free unrestricted use of the same."

With a municipally-owned plant for street lighting purposes as the ultimate aim, the realtors passed a motion requesting the city council to appoint a committee to make a thorough investigation of the lighting system and of the approximate cost to install a lighting system for street lights exclusively.

The board also went on record as offering its 100 per cent support to the proposal to bring the state American Legion convention to Santa Ana in August, 1925.

Roger Bolsum, one of the crippled children who appeared in the minstrel show last night, sang three solos.

Here is Resolution. Following is the resolution adopted at Friday's meeting: "As the entire ocean frontage from Santa Barbara to San Diego is rapidly passing into the hands of individual owners by the process of subdivision and the public thereby being forever barred from the free unrestricted use of the same, therefore,

"Be it resolved by the Santa Ana Board of Realtors, that the board of supervisors of Orange county be petitioned to take steps to purchase the ocean frontage from Newport Beach to Laguna Beach, or as much thereof as seems practicable and running back from tidewater a reasonable distance to include the high bluff; this frontage to be set aside, to be used as a great ocean front park, for the people of Orange county and state of California for all time."

**New City Dump  
Projected For  
Council Ruling**

A special committee appointed by the city trustees, last Monday, to investigate conditions at the city dump, located on the Harper land west of Santa Ana, it was understood here today, will recommend that no new contract be made with the Harper interests when it expires September 1.

Instead, members stated that at the council meeting to be held Monday night they will further recommend that some of the land now owned by the city and unfit for farming purposes be set aside as a city dump. Just what land the committee will suggest as a dump, it was added, has not been decided upon.

The committee was unable to make a second trip of inspection to the grounds in question yesterday, it was stated, but a cursory survey made Thursday by this committee, composed of Trustees Nat H. Neff and George McPhee and City Engineer W. G. Knox, was said to have prompted the committee to decide to recommend that a new dump site be obtained.

**Finds Oregon Also  
Is In Need of Rain**

C. N. Mozley, chief deputy district attorney was back in his office today after taking a vacation motor jaunt to Portland, Ore. with his family.

Excellent crops in northwestern Oregon were noted by the local official but in the southern part of the state evidences of drought were found, he said, due to lack of facilities for utilizing the water in mountain streams.

"This is the first time Oregon has been without rainfall," said Mozley, "and the cities have no provisions there for irrigation. In Ashland even the lawns were burning up because there was no means for distributing the water from the streams, of which one was flowing right through the town."

**\$50,000 Slander  
Suit Trial Near**

Opposed forces in the sensational \$50,000 suit for alleged slander brought by Lew H. Wallace, Newport Beach banker, city treasurer and former harbor official, against Lee Pfau of Balboa, were today arranging their battle lines for the clash in court.

Trial of the case, which is expected to bring the spotlight to bear upon Pfau's remarks concerning Newport Beach municipal and harbor affairs, is scheduled to begin at 10 a. m. Monday before a jury in Department 1 of the superior court here, Judge Z. B. West presiding.

Radio Supplies at Gerwings.

**SEE FORTUNATE  
DEATH ESCAPE  
IN CAR CRASH**

James Wilfong of Garden Grove miraculously escaped death at 6:30 a. m. today when his car he was driving was struck by a large touring car driven by W. E. Williams of Long Beach, at the street intersection at Bolsa. Wilfong suffered several lacerations about the head and face. Williams, his wife and daughter the latter aged 14, escaped with bruises, though the girl's ribs, physicians said, may have been fractured.

Williams' light touring car was turned completely around by the impact. The entire rear was torn off and Wilfong was thrown out of his seat to the pavement.

Williams, who was traveling toward Santa Ana, said that at the intersection Wilfong's car, going south at a speed the former estimated at more than 35 miles an hour, crossed his path. Though both men clamped on their brakes, the collision, Williams added, could not be avoided.

Williams' large touring car was thrown head-on against a telephone pole completely demolishing the machine.

Williams declared the only thing that saved himself and the other occupants of his car was the fact that the auto was an extremely heavy one.

After being given medical attention, Wilfong was taken to his home, where it was said his condition was not dangerous.

**UNITED WORKMEN  
COMING TO S. A.**

At the recent state convention of the Ancient Order of United Workmen, held in Los Angeles July 19, it was decided to hold the convention or the order next year in Santa Ana. This decision was brought about by the influence of C. E. Dimple, district manager, who recently came here from Philadelphia and was so favorably impressed with this city that he has already decided to establish his home here, at 333 Harvard Place. He was appointed district manager of A. O. U. W. shortly after coming to Southern California. The order organized in this city about a month ago.

# IT'S HERE!! AT LAST IT'S HERE!! BAKED ENAMEL FOR YOUR ENTIRE CAR

**1 to 6 Days!****Any Color!**

Only Process in the United States for Baking the Entire Car  
**ALL OLD PAINT REMOVED**

**THE DEHCO PROCESS**

The DEHCO PROCESS is a system for baking enamel on the entire car at a temperature of 165 degrees F.

It is the ONLY SYSTEM FOR BAKING IN ALL COLORS.

It is the only system which accomplishes at 165 degrees what has heretofore necessitated a temperature of 400 degrees F.

Paint and varnish depend on the moisture content to maintain luster. When this moisture is dried out there is no finish left. DEHCO BAKED enamel is thoroughly dried out in our ovens which leave no moisture for the elements to work on. DEHCO Baked Enamel outlasts any paint job many times. In the DEHCO PROCESS there is no necessity to remove top, upholstery or tires, hence we can deliver your car in from 1 to 6 days looking like new and in ANY COLOR. Our baked enamel job will withstand any of the so-called tests—acid, hot water, etc., and in addition is the ONLY PROCESS to which the alcohol fire test can be applied. The DEHCO PROCESS is six years old and has proven equal to every requirement. There are now 200 DEHCO plants operating at capacity throughout the East and Middle West. Everybody is familiar with the superiority of baked enamel as used on the fenders of all cars and the bodies of a few. The durability and luster of baked enamel needs no argument. IT IS THE BEST.

**IT'S ADVANTAGES**

By the DEHCO PROCESS cars can be permanently finished in from 1 to 6 days and we get results equal to any high temperature baked enamel in durability and luster.

The price is less than a first class paint job. You select the color.

DECHO Baked Enamels do not crack, check, peel or lose luster in a few months. They last the life of the car.

## DENIES MOTHER TOTS AS ROW IS ALLEGED

The two little daughters of Merle C. Smith and his former wife, Florence Smith, will remain with their aunt, Mrs. Smith's sister, it was made known today, despite the efforts of both parents to get charge of them.

The aunt will keep them, Judge Z. B. West decreed in the superior court here late yesterday, because their stepmother, Mrs. Lillian Smith, would have the children only on condition.

That condition was that Mrs. Smith No. 1 should not be allowed to visit her daughters at the home of Mrs. Smith No. 2, unless she agreed not to cause trouble.

Quarrel is Alleged  
Except for that condition imposed by Mrs. Smith No. 2, the court, he stated, would have given the children into the care of their father. At the same time, the court stated, he did not blame Mrs. Smith No. 2 for objecting to the visits of No. 1.

Mrs. Smith No. 2 had testified that Mrs. Smith No. 1 came to her home one day, caused a violent quarrel and called the mother of Mrs. Smith No. 2 an asserted vulgar name. Mrs. Smith No. 1, it was stated, ended the purported scene by fainting in the yard.

Mrs. Smith No. 2 said she was ready and willing to take her two stepchildren and "be good to them," but she didn't want to take them, she explained, if their mother was allowed to visit them, unless the latter was prevented from making trouble.

Mother Held Unfit  
"Except for that," said Judge West, "I'd let the father have these

## BEACH PLAYERS HAVE MEETING ON SANDS

LAGUNA BEACH, July 26—

Much interest was shown at the Beach Supper given by the Laguna Beach Community Players Section on Friday evening. Although the event was not widely advertised, it drew a large number of people. The supper consisted of Spanish beans, hot dogs and buns, coffee, cookies and pickles. Second helpings were served to the majority and they all declared that the supper was splendid.

Mrs. Stephens had charge of selling chances on the many lovely things donated by different business houses in Laguna Beach and in Santa Ana. The winners of the prizes were, Mr. F. W. Cuprien, holding No. 287, a box of stationery donated by Mrs. R. H. Stephens; Miss Millie Boulanger, holding No. 208 won a "Simore" Sewing Machine donated by the Skidmore Brothers corporation. The screw

children, but their mother must be allowed to visit them, so their aunt may keep them.

The court called attention to the fact that when the Smiths, had been divorced another court had declared the mother to be unfit for custody of the children, who were awarded to their father. The father made arrangements to place the children with the aunt, but after remarrying desired to take them.

Judge West stated that he did not see any reason for changing the previous order regarding custody of the children. Yesterday's hearing was held in connection with an attempt made by Mrs. Smith No. 1 to gain custody.

## CRIPPLED TOTS GIVE NOVEL MINSTREL PROGRAM HERE AS THRONGS ARE TURNED AWAY

By ELEANOR ELLIOTT

Can you picture Santa Ana's high school auditorium so crowded that side aisles were filled with spectators deeply interested in what was offered on the stage and countless persons had to be turned away because there wasn't room?

Such was the state of affairs last night at the auditorium when nearly a score of the most courageous young people imaginable came out from the Orpheus hospital in Los Angeles and gave a minstrel program.

"Never has so enthusiastic a support been proffered us and never have we had so friendly a spirit shown us," declared Mrs. Mary Roll-Hatch, patron and director of the youngsters, as she surveyed the house in which every seat was taken.

It was wonderful to play to such an audience, and it has been wonderful to be entertained as we have been today," breathed dark-eyed little Mollie Taylor, as she relaxed in her big wheel chair after her strenuous evening as interactor. For the group was complete with interactor, and men.

"Mamah Bones" and all the old standbys of minstrelsy. It was a vivid and picturesque scene upon which the curtain rose promptly at 7:30 o'clock. In a semi-circle were the young performers, many of them in wheel chairs, most of them wearing intricate braces on pitiful little twisted and undeveloped legs, but all of them beaming with happiness and friendliness, and most of them garbed in gay yama-yama costumes of bright colors.

Centering the group of black-face comedians was Miss Taylor as interactor, smart and boyish looking in a youth's correct evening clothes, even to the silk hat. Her vivacity and interest in what the "alumni students" are doing to help others less fortunate than themselves aided her to soar above the limitations imposed by a wheel chair, and her work was clever and original. She also gave some most interesting pianologues, including "Red-Head," after being wheeled to the piano by Master Roger Bolton, general utility man of the group.

Roger not only helped in moving and adjusting the chairs but he also sang any number of songs in his silvery, boyish voice. Especially appealing was the one in which he forgot, but with the perseverance which is going to mark his progress through life, he returned to the fray and conquered, and sang the song clear through.

Master Kenneth Greene was another boy soloist who delighted with dainty melodies, "Carry Me Back to Old Virginia" and more recent favorites such as "Carolina Mammy" and "Tucky Home".

Miss Florence Ray, as emcee, was a genuinely talented young fun-maker, and in addition to her sallies sang a number of character songs in a clever manner and with a very sweet clear voice. A clever little reading by Miss Edna Crawford was keenly enjoyed, especially for its slightly reminiscent strain. Young Chester Williams was another talented reader who so entertained his audience with amusing impersonations and a flow of funny stories that he was recalled again and again. So magnetic was his personality that his physical handicaps were completely forgotten.

Harmonica solos sweet and clear were the unique offerings of young Onas Stewart, who proved himself a true musician. Dainty Miss Elizabeth Linderman's violin selection was lovely and her encore number, an Italian melody by Lieurance, was quite as inspiring.

One of the most unique events of the evening was the presentation of the "Bever Triplets" in piano numbers. They were three lovely girls, in dainty orchid frocks

driver is made by the Simon & Skidmore Mfg. company of Santa Ana, Number 41, held by E. H. Cookingham of Santa Ana, won a ladies collar and cuff set donated by the Stuart Herrick company of Laguna Beach; Mr. A. S. Hall of Cravath and Hall holding No. 210 won a box of chocolates donated by the Mallow Strang Drug company of Laguna Beach. The box of Chocolates donated by Chris Sorensen, the man who charged his "doll rack" to an orange juice stand, was won by Maurice Isch, holding No. 267. Mr. Sorensen wishing to demonstrate the kind of wares he had to sell generously donated a large pitcher of orange juice which was enjoyed by the guests. A box of candy donated by the James Confectionery Store of Santa Ana was won by person holding No. 199, the winner has to date not claimed the prize. "Little Pete" the white elephant donated by Florence Peet Hansen is also without an owner, but is waiting for the lucky one who drew No. 255.

The refreshments were prepared by Mr. T. J. Moon of the Hazel Cafe and a great deal of credit is due him for the way he prepared "dum beans."

Mrs. Alice Wakelee, Mrs. J. W. Rankin and Mrs. Florence P. Hansen, Miss Boulanger served and were assisted by a number of club members.

Mrs. Rankin announced that a number of articles donated were not to be raffled until next Friday evening when a Community Dinner and entertainment will be given at the Community Club from six o'clock on, and everybody is invited to attend. Several of these articles were donated by Santa Ana firms.

The funds derived from these various entertainments are given to the Community Club building funds. The club needs a covering of stucco and several changes made on the inside. These entertainments and suppers are given to raise funds to carry the building to completion, and they are also given that they may cement that "community" spirit that is so necessary to the advancement of a town, to the upward growth of worthwhile ideals and the better understanding of our fellow men. Who can go away from a meeting with a "chip on the shoulder" after looking at your favorite "grudge" over a cup of wonderful coffee?

each with fair, soft hair, waving about a piquant little face, and as like as "three peas in a pod," with one sad exception—one little sister is forced to wear a heavy steel brace to lengthen and straighten her left leg.

Ramona, Orena and Reona—all three charming and sunny faced—they were a sight to gladden hearts and played sweetly, indeed, with a harmony that must rule their lives.

In her gay yellow Columbine outfit, Miss Asthore Berkable presided at the piano, she playing accompaniments for such soloists as required piano accompaniment and leading the choruses in which the remaining young people joined.

These were Ruth Campbell, Amanda Ulberg, Hazel Kuykendall, Mariana Leezer, Marjorie Taggett and Sarah Robins.

Every penny realized by the children at the performances goes into a fund they have established to aid others. Part of it is educational and young people of marked talent in the school will be helped to fit themselves for a professional life.

Wherever they have appeared they have met with co-operation and enthusiasm, just as they did in Santa Ana last night. A pleasant end to the evening came with the presentation to each one of the program of a cluster of flowers from pupils of the Maude Putnam school of dancing, and a great basket of scarlet dahlias to the interactor from the Kiwanis club.

Motion pictures of the school and its young people were shown at the conclusion of the program.

The Tractor that has "Proven itself" in the hands of many critical owners during three and one-half years in the field.

# Runs Like New! After 31,256 Miles

HERE'S another record of care-free miles! A prominent business man of Long Beach saw to it that his motor had proper care—regular crank case draining—and no other oil but VENTURA! His statement tells the rest:

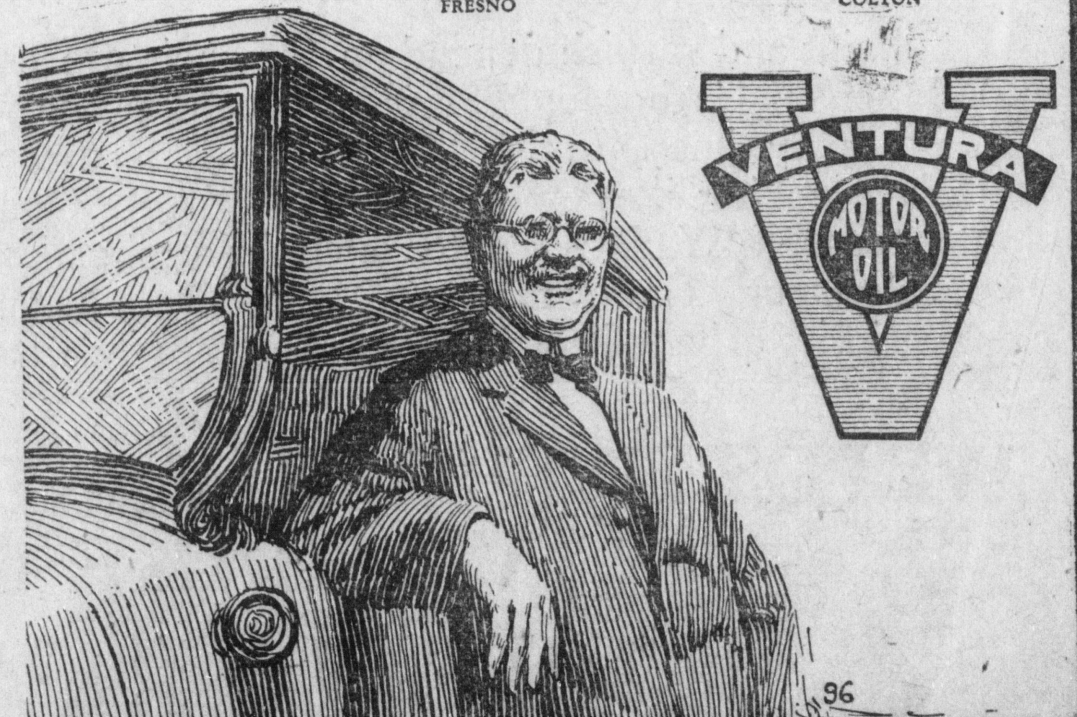

THIS is to certify that I have driven a Nash Six Touring Model 691, Serial No. 221128, Motor No. 105830, License No. 702597, 31,256 miles, and have never had valves ground or spark plugs cleaned, and it runs like a new car. I have never used any gas or oil, but VENTURA.

H. M. Killingsworth

THAT'S a remarkable record, but only one of many made by VENTURA-lubricated cars. Your motor, too, can deliver mileage without motor-worries. Next time it is drained, specify VENTURA—it does save your motor from wear.

Look for the "Red V" sign.

# There Are Ten Men In This Town Who Know What I'm Talking About

THIS is really an open letter to ten men in this town who do not believe in gambling on anything.

They are the aggressive, thinking, solid, substantial citizens to whom character and reliability mean everything.

They are the men who buy the safe bonds—keep industry going—keep civic spirit alive—in short, they have made this town what it is.

Ten or fifteen years ago these men started to buy motor cars.

Reliability was what they demanded. Reliability was what they got.

But in those days reliability could only be realized in the heavy cars.

They paid for one thousand pounds more weight than is now necessary, just to gain reliability.

But motor cars are changing—and so are the minds of these men.

Two things are making them think.

One is weight, which means expense.

Another is depreciation, which means loss.

You can't get enough in the resale market for the old fashioned, bulky car to make it a good investment.

You can't drive it all day and return without fatigue.

You can't find your place easily at the curb.

You can't handle the car in the traffic with sufficient ease.

These ten men, and their point of view, determined the character of The Great Jordan Line Eight.

They want modern beauty of line.

They want modern balance which means proper distribution of weight.

Their wives want a reliable car that is not too big, too unwieldy to handle. They want more style.

The Great Jordan Line Eight, when judged by standards of economy and reliability, is a little bit better car than has been produced before in America.

Travel at any speed you care to drive.

Because it is well balanced, it holds the road perfectly. It cannot skid with four wheel hydraulic brakes and balloon tires.

The motor is simple, without complication—the service expense is low.

The resale value is very high.

These ten men will set the example for the conservative, careful buyers of this community.

These ten men will investigate The Great Jordan Line Eight.

## BEANERS READY FOR CARLSBAD ENCOUNTERS

Manager Trickey to Start  
Same Team That Nabbed  
County Championship

Their supremacy as the leading semi-professional baseball team in these parts again threatened, Manager Arthur Trickey's Irvine Beanpickers tomorrow afternoon at Irvine will begin a two-out-of-three series with Carlsbad, champions of San Diego county. The game will be called at 2:30 o'clock.

If the Beanpickers can win from the Southerners they have been promised a game with the Glendale White Sox, Southern California title-holders and winner of twenty-seven consecutive contests.

Manager Trickey announced today that the usual Irvine lineup would be sent in against Carlsbad. "Dutch" Hinrichs will go to the turret with Earl Ihrig elected to do the receiving. "Bub" Mitchell will be perched at first base, Ralph Mitchell at second, Joe Rodgers at third, "Scotty" Hapscott at short, "Bab" Armbrill in left field, Johnny Armbrill in center and "Dutch" Sousa in right field.

A victor for the cross-roads squad in the Carlsbad series will give it the championship of the extreme southern part of the state. Trickey expects his men to finish the series in two Sundays but Roy Carpenter, leader of the San Diego county outfit, who saw the Commercial company-Irvine game last Sunday, says his men are capable of playing right along with the Beanpickers.

Cubs Suffer With  
Star Flinger Out  
Of Game For Year

ALEXANDER  
Suffering a broken wrist, Grover Alexander, star pitcher of the Chicago Cubs, may not be able to throw another ball this season.

With Alexander out of the game the Cubs' chances to win the national league pennant are reduced almost 10 per cent.

Alexander was the mainstay of the staff, with nine victories out of 12 starts.

Walter Johnson  
Ideal Flinger  
Says Babe Ruth

NEW YORK, July 26.—"Walter Johnson is the ideal pitcher," says Babe Ruth, baseball's greatest slugger.

Prior to his reign as the "King of Swat," Ruth was the premier southpaw pitcher of the American League. All of which qualifies him as an expert in judging pitchers.

"The fans think only of Johnson's great speed as a pitcher, when as a matter of fact he is the most finished all-round performer in the major leagues.

"With his speed, Johnson has a fine curve, a good slow ball and a great change of pace. That's enough for any pitcher."

"Incidentally, Johnson is probably the best fielding pitcher in the American League. Washington has five infielders with him working."

"Unlike most great pitchers, Johnson is a fine batsman. He hits 'em hard and is dangerous in the pinch. The averages show him around the 300 mark."

"That is why I call Johnson the ideal pitcher. He can do everything well."

Lady Bowlers to  
Meet All-Stars

Scores of local bowling enthusiasts are expected to flock to the A. and B. alleys here tonight when the Peco Lane Lady Bowling team of Los Angeles will meet Max Ames' A. and B. All-Stars, claimants to the Santa Ana ten-pin championship. The first match will begin at 8 o'clock.

HOPPE BEATS PITCHER

LOS ANGELES, July 26.—Dick Hoppe won a decision over Frankie Pitcher in four slow rounds at the Hollywood Legion stadium last night. The bout failed to elicit much enthusiasm from the crowd. The bout before the featured event proved popular when Eddie Diggins and Tompp Carter fought a slashing draw.

LAGUNA BEACH MAN ILL.

LAGUNA BEACH, July 26.—L. T. Rhodes, father of John Rhodes, was suddenly taken ill on Thursday night. His wife notified Mr. L. V. Murphy, justice of the peace, and accompanied by Howard D. Cox, constable, they took Mr. Rhodes to the Orange county hospital. Mr. Rhodes is suffering with heart disease and has been at the hospital formerly for such treatments. Mr. Rhodes recently reached the age of 75. Mrs. Rhodes left early Friday morning for the hospital to see her husband and consult with the doctors.

## COOPER EASILY TRIMS TERRY AT BEACH

Stockton Portsider Takes  
Every Round; Weber and  
Hogan Go to Draw

Huntington Beach Results  
"Lefty" Cooper won from Terry, decision.  
Johnny Weber, Billy Hogan Draw.  
Eddie Montana, Jim Carroll—draw.  
Eddie Benson won from Walloping Wilson—foul.  
Eddie Dugan won from K. O. Brown, decision.  
Tony Ramirez won from Young Honda, decision.

By RINGSIDER  
We'll have to hand it to Young Terry, Anaheim welterweight. He can take 'em.

That's all Terry did for four rounds at Huntington Beach last night when he stepped out against "Lefty" Cooper. Stockton 145-pounder, in the main event of Kid Mexico's lively show.

Cooper slapped Terry with rights and punched him full of holes with numerous lefts but the Anaheim boy was still there at the end—trying gamely to solve the puzzling defense of his portside opponent. Cooper won all four rounds and the decision. He never was hard-pressed except that Terry was always trying and always making it a fight.

The semi-windup and feature preliminary bouts were whirlwind encounters. Johnny Weber, veteran lightweight, found a formidable foe in Billy Hogan but more than held his own. Johnny had a slight edge but the draw decision didn't do anybody any harm and it was well received.

The feature spot was a two-gun drama with Eddie Montana and Jim Carroll furnishing the blood and thunder right. These boys slugged, slugged and slugged some more to a ripsnorting upsticks verdict.

Eddie Benson filled in for Roy Moore and won from Walloping Wilson, Los Angeles colored lad, when the latter unintentionally fouled him in the third round.

Eddie Dugan came to life in the second bout and hammered the daylight out of K. O. Brown. Dugan almost stowed Brown away in the third when he shifted his attack to the mid-section.

Tony Ramirez won a slow curtain raiser from Young Honda.

Jack's Film Work  
Near Completion

SAN DIEGO, July 26.—Jack Dempsey went back to his home in Los Angeles today after completing work on his ninth "Fight and Win" picture here. Under his movie contract, the fistie king has only one more film to "shoot" and then he'll get down to training for a battle with the winner of the Firpo-Willis match.

Dempsey's arm is still a bit sore from the auto accident near Santa Ana last week while en route here.

Than I Could Use"  
—RALPH DE PALMA

WHIRLING up the Mt. Wilson toll road, around hairpin turns and over heart-breaking grades, a Chrysler Six Stock Touring Car, with Ralph De Palma at the wheel, shattered all previous speed records for the climb in the remarkable time of 25 min. 48.85 sec.

"More power than I could use," smiled De Palma, as the hydraulic four wheel brakes brought the Chrysler thoroughbred to a steady stop 100 feet from the finish tape.

"The power behind the car" was VENTURA GASOLINE, "California's Best," selected, after thorough tests of various gasolines by Greer-Robbins Co., Chrysler Distributors, as the fuel to put the Chrysler up the mile-high climb in record-breaking time.

De Palma needed quick starting, instantaneous pick-up and abundant power to drive the Chrysler to victory. These qualities—and more—he found in VENTURA. And it was regular commercial, VENTURA Gasoline—not a specially made product for the run—the same grade of VENTURA that every motorist can buy at any "VENTURA" Service Station.

The same "VENTURA" qualities that made the Chrysler record possible can be utilized and enjoyed by every motorist in his own car.

VENTURA is distilled from high grade paraffin-base crude oil and is free from "cracked kerosene substitutes." It is clean, clear, sweet—vaporizes completely and mixes instantaneously with the air stream from the carburetor, delivering smooth, dependable power that means economy and comfort.

To get VENTURA, stop at independent service stations or garages that display the "RED BELL" sign.

## Coming Attractions at Local Theatres

"LISTEN LESTER" CLOSES

AT YOST TONIGHT

"My last part since I made 'A

Connecticut Yankee'."

This is the way Harry Myers, film comedian, describes his role in "Listen Lester," the adaptation of John Cort's stage success which closes at the Yost tonight.

"Here is an ideal role for a comedy film," he says. "There is just enough story to provide genuine love interest and a coherent plot; but it is the comedy element that predominates. My part is one in which a screen comedian delights. It calls for distinctive character portrayal with innumerable gags and humorous situations to help the actor get his stuff over. It should entertain all the way."

The opinion is shared by Lee Moran, Louis Fazenda and Dot Farley, all of whom have had long experience in catering to humorous appeal and all of whom agree that "Listen Lester" is rife with comedy opportunity.

"THE ARIZONA EXPRESS" AT YOST MONDAY

Pauline Starke, who plays the role of Katherine Keith in "The Arizona Express," coming to the Yost theater Monday, didn't feel any particular nervousness when they cast her for the part. She had only recently finished playing opposite Tom Mix in "Soft Boiled" which she supposed qualified her for anything in the "stunt" line.

Lincoln Carter, who wrote the story, can pack more hair-raising thrills into a minute than most authors get into a whole play—and Pauline believes every word of it.

"I increased my life insurance," said the little actress, "on the day the script demanded that I walk along a window ledge and enter a hotel room from the outside."

"But after I did that, there came more script with more things to do, and some of those things were of a kind to make the window stunt seem as easy as rolling off a log."

"CONDEMNED" ON YOST SCREEN TOMORROW

If you want a hearty laugh, go to see "Condemned," at the Yost tomorrow.

True, it has its moments of pathos but this only accentuates the sterling comedy situations. Mildred Davis is the star and she is as dainty and sweet a little heroine as one could wish.

The story has a good punchy moral and hands a few back-handers to the gossips who cause so much trouble in this world of ours.

Carl Miller, who played a leading role in "A Woman of Paris," did good work as the leading man. And Arthur Rosson directed with plenty of speed and comprehension.

The character delineation is especially fine and even for the smaller bits, fine actors have been secured.

"MAYTIME" AT TEMPLE TONIGHT, SUNDAY

Wallace MacDonald, signed for an important part in Gasnier's production of "Maytime," now showing at the Temple theater, is one screen player who turns up a contemptuous nose toward whisky in all its forms.

But, like all broad minded men, Wally admits that the demon rum has its uses. The other morning his pet police dog roamed into Laurel canyon from the MacDonald home and was bitten by a snake. There was an ugly bite on the shoulder of the player's pet, and just as he would do for a human pal, Wally sucked the blood from the opening.

"And you gave the dog no whisky?" demanded a fellow player.

"No," was the reply. "The dog didn't like the stuff. But I had been under some danger of poison myself and, although I don't care much for it, my wife insisted that I take just one little half pint that had been kicking around the house for years."

"RIDERS UP" STORY OF TIJUANA RACE TRACK

Gerald Beaumont, author of the Red Book magazine story, "When Johnny Comes Marching Home," filmed by Universal as "Riders Up," now being screened at Walker's theater, was a sports writer on California newspapers, making a specialty of race track activities. "This picture is the story of the race track tout. It was filmed at Tijuana with an all-star cast directed by Irving Cummings.

The cast includes Creighton Hale, George Cooper, Kate Price, Ethel Shannon and Robert Brower.

"NOODLES" FAGAN AT WALKER'S TONIGHT

What do you think of a man who can talk 375 words per minute, and bring a laugh every minute? It sounds impossible, but it isn't, for it's being done at Walker's theater by "Noodles" Fagan, of "Noodles" Fagan and Elsie, the California Komic.

"Noodles" also writes songs at the same rate of speed, and the whole act is sure fire comedy.

If you want to laugh, like to laugh, mean to laugh, see the big laugh a la carte—"Noodles" Fagan, the blues-break of the Pantages circuit, at Walker's tonight.

## Realty Men Fail To Reach Verdict

FULLERTON, July 26.—The Fullerton Realty Board yesterday afternoon inaugurated a new departure by choosing a pair of judges and a jury to hear a commission case under dispute, following similar lines with their tribunal to those of the state supreme court.

The jury after being out for an hour reported they could not reach a decision, having become deadlocked three to three. Like many regular honest-to-goodness juries do in court cases. Felix Stein and Hugh Miller were judges while Mayor H. H. Crooke, president of the local realty board, was foreman of the jury.

NOTICE: Parking and Storage. Tucker's Auto Park, Second and Bush.

Mildred Davis in a scene from "Condemned," tomorrow's attraction at the Yost theater.

"THE SILENT STRANGER" AT WALKER'S TOMORROW

In "The Silent Stranger," tomorrow's attraction at Walker's theater, movie fans will see Fred Thompson, world champion athlete in a series of remarkable feats of horsemanship.

The film first shows Thompson as Jack Taylor, an ex-service man who is now deaf and dumb, saying good-bye to his horse "Silver King."

But, with the devotion to his master that is only known by a horse or a dog, "Silver King" jumps a fence and follows the stage coach. Jack seeing Silver King, leaps from the fast moving stage to the horse's back.

Thompson's next bit of daring riding is a stunt calling for him to leap from the saddle to the branch of a tree while the horse is going full speed. The action throughout the entire story is swift. Thompson mixes his riding and athletic ability nicely. At one time he jumps clear over a small car into the saddle. The most daring stunt of all is made when he does a flying mount on a runaway team, rides them in Roman style, and finally stops the horses.

## A PUZZLE A DAY

Three men set out to fill a tank with water. The tank had a capacity of 53 gallons. At the end of every three minutes, the first man brought a pail of water. The second man brought a quart at the end of every minute; the third man a gallon at the end of every seven minutes.

How soon was the tank filled, and which man brought the last load of water?

Yesterday's answer:

By simply cutting the circle in half, with one straight cut, the circle and the square are arranged so they may be fitted together to form a heart.

## For Sale—City Property

## EVENING SALUTATIONS

I call, therefore, a complete and generous education, that which fits a man to perform justly, skillfully, and magnanimously, all the offices, both private and public, of war and peace.

—John Milton.

## AN APPEAL TO HARDING

A very interesting story illustrating the character and disposition of the late President Harding, and incidentally, if not primarily, indicating the forcefulness and humaneness of the President's sister, our fellow citizen, Mrs. E. E. Remsburg, was told at the Kiwanis Club luncheon last Wednesday by Mrs. H. A. Atwood of Riverside, chairman of the Indian Welfare Committee of the General Federation of Women's Clubs.

Mrs. Atwood said that a certain Indian agent—rather, ex-agent was about to be reappointed to the position he had held, and which he had disgraced. The Indians on that reservation came to Mrs. Atwood and told her that this man was coming back and that it would mean trouble. They said that he had secured his position originally through political influence and by the same token was about to get back on his old job. The Indians said he was unfit in every way; that at one time he had fired a pistol out into an orchard and wounded one of the women, leaving a great scar across her cheek where a bullet had plowed its way. They made no threats but earnestly pleaded with Mrs. Atwood to prevent the return of this man, saying that it might mean murder.

Mrs. Atwood verified these reports and at once got busy in an effort to prevent the reappointment of this man but she made no headway. The political machine was in action and no amount of pleading or influence seemed to have any effect. After exhausting every means at her command to prevent the objectionable appointment, someone suggested that Mrs. Atwood go to Santa Ana and see Mrs. Remsburg, the President's sister. Mrs. Atwood said Mrs. Remsburg was immediately interested and very much concerned about the matter and said she would "write to Warren."

Immediately upon hearing from his sister President Harding wired Mrs. Atwood that she need not worry any more, that the appointment would not be made.

## THERE'S ACTIVITY AHEAD

Business circles in Orange county are looking ahead to an active autumn and winter.

"The prospects right now for stable business activity during the coming months are unusually bright," declared a Santa Ana banker a few days ago.

He was referring, in general, to conditions all over this county, but had particular reference to the outlook for prosperity among farmers and orchardists. And the views of the banker in this regard are concurred in generally by business men of the county.

With warmer weather in the East, lemons are bound to bring better prices. Valencia oranges of the larger sizes have been selling unusually well, and the indications are that from now on the market will build satisfactorily for the smaller sizes.

Walnuts are filling out into a better crop than two months ago had been estimated as likely. The nuts set on the trees over a longer period than usual, so that those who made estimates early in the season were mistaken in the size of the crop in this county.

Week by week, the outlook for a big bean year grows into certainty. On the dry lands from six to ten sacks to the acre will be produced, and irrigated lands will double and triple the dry land averages. On the Irvine ranch alone several hundred acres on which lima beans are grown are under irrigation this year for the first time. Prices are good, with indications that not less than eleven cents per pound will prevail.

So, it appears, there is good reason for the expectation that Orange county will have an active fall and winter.

## BILL HAYWOOD AS LECTURER

"Big Bill" Haywood, former American I. W. W. leader, has been in obscurity for some time, since he jumped bail in Chicago and fled to the glorious land of Bolshevism. It was revealed, a year or two ago, how his Bolshevist hopes had been disappointed. The Russian Reds refused to take his brand of radicalism seriously—or else they were jealous. Treated coldly at Moscow, he undertook to establish a self-supporting communist colony in the Ural mountains. That project failed, either because it was no good or because of Bolshevist opposition. So Bill, unable to return to his beloved America as—like Emma Goldman—he wishes he could, has gone on the lecture platform.

He travels from city to city, telling the Russians about social, economic and political conditions in America. He is handicapped by his ignorance of Russian, and has to speak through an interpreter, but he doesn't let that bother him.

It would be interesting, though probably irritating, to know just what this particular interpreter of American life is telling the Russians about us. It must be a weird account. Yet it may not be any more weird than some of the accounts we get of Russian life, pro and con, from similar adventurers in this country.

## WAR'S MEDICAL LESSONS

The Official Medical History of the Great War, in 11 volumes, has now been written and published. It is a British publication and deals with the mistakes in the medical system of the British forces. It also suggests remedies and better methods for "next time."

And so the public of all the civilized nations goes on trying to profit by the lessons of the World War. More effective weapons of destruction are sought, and also more effective means of protection and healing.

The greatest lesson of the war appears to remain unlearned. That is that war, at best, is horrible, painful and wasteful. Laying down rules for it, exerting human ingenuity to make its effects less far-reaching, seeking to check its most hideous phases, are all small things to accomplish in comparison with the one great thing which needs to be accomplished—the elimination of war.

It is foolish to say that human nature is as it is, and always will be so, and that therefore selfishness

and greed will always exist and must always be expressed at intervals in the form of warfare. History teaches us that human nature can be changed for the better, though very slowly, and that in private affairs, at least, mutual agreement and arrangement have taken the place of forceful grabbing for individual gain. It can be so with nations.

## NO MORE SAVINGS STAMPS

The war savings stamps and certificates have served a useful purpose. They raised large sums for the government at a time when it needed all the funds it could obtain, and they promoted thrift at a time when thrift was essential for the success of the war and the credit of the nation.

Now it is agreed that this savings device is no longer needed. The government relinquishes it gladly because it can borrow all the money it wants now at less than 4-1-4 per cent.

The public does not seem to care much; it has not been patronizing this government bank so liberally of late. This is true of Santa Ana patronage as it is true of patronage over most of the country. Everything considered, the change seems to be a wise move, benefitting the government and benefitting legitimate private banking interests without doing the public any harm.

## Beef and Butter Conflict

Kansas City Times

The progress so far reported in dealing with the Dawes plan in London is on the less contentious matters. The fundamental difficulty is still to be faced. That difficulty is in the conflict of the national interest of England and France.

England is anxious to get back to business as usual. It wants to safeguard itself against any further interruption of the Ruhr. The security of France against German attack is much less important to British statesmen than the uninterrupted flow of trade which they believe will follow from a rehabilitated Germany. It is anxious to arrange things so France will not find justification for such action as it took in the Ruhr. That is why England under the Dawes plan to the reparations commission as now constituted. For the commission is dominated by France.

France, on the other hand, holding the question of its own security paramount, refuses to jeopardize it by surrendering the independence of action it now has through control of the reparations commission. France profoundly distrusts Germany. It insists on being in a position to take energetic measures for its own protection if it thinks them necessary. It is able to do that under the present arrangement through domination of the reparations commission. This advantage it will not willingly surrender.

The great question before the London conference is whether a compromise can be worked out which will give both England and France the assurance of protection to their national interest on which both insist. It is almost as difficult as it would be, in Lloyd George's phrase, to get both beef and butter simultaneously from one cow.

## Farm Prices Soar

Long Beach Press

Rising prices of wheat, corn, oats, rye and other staple farm products, are adding immensely to the wealth of the country. It is estimated that American farmers have profited \$1,000,000,000 from the price advances of the last few weeks. Great quantities of held-over stocks of grain are being sent into market and the higher prices now prevailing are being realized. Farmers are coming out of their state of discouragement and the world looks brighter to them.

Meantime, with this bettered status of the farmer, the whole economic fabric catches the reflex and business and industry are stimulated.

The economic situation, in general, is becoming more favorable throughout the country. With Congress adjourned and with all interests adjusting themselves to the new tax law; with the political party nominations made and platforms enunciated; and with probability that the reparations controversy in Europe soon will be settled, all factors and influences are tending toward betterment of the general status of business and industry.

## Editorial Shorts

Considering the skill and courage it requires to practice it, the poorest paid profession in the world is burglary.—Punsutawney Spirit.

A Cincinnati man is seeking advice on how to spend \$1,000,000 in a way that is satisfactory to himself and to the public. It can't be done.—Canton Repository.

Our debt of more than \$20,000,000,000 will be paid off in 35 years. Let's not have any more wars till then.—St. Louis Globe-Democrat.

Both directly and indirectly the work of General Dawes in Europe has been the most helpful and promising thing done for the American farmers.—Springfield Union.

## ACUTE AND CHRONIC

You have been to your physician with a troublesome cough, and after examining you he states that it is just an "acute" condition and that you'll soon be all right.

Or perhaps you have suspected that your kidneys were not acting properly, and you have brought him a sample of your urine. After examining this he asks you to bring in another sample in a few days, and then another a week or two after that.

You ask him the reason for this. "Well," he tells you the first and second samples (or perhaps sugar) in your urine the first time and I wanted to check it up. I find this second sample and also the third to be perfectly normal so that must have been just an "acute" condition the first time."

Now, you would like to know what "acute" means.

You think of an acute pain as a sharp, sudden, or very active pain, but it is a little harder to understand it as applied to a cough, or to the kidneys.

When an ailment or an infection attacks you, your entire defensive forces arise to meet it.

Your blood cells increase in amount and attack the invader. Your heart beats stronger, you breathe faster, and a real struggle ensues. You are well again in a short time, due to your defensive forces winning a complete victory.

This is an acute condition, your doctor recognizes it as such, and watches the progress of the battle. But if the invader is powerful, or your defensive forces are weak, you do not get over the attack completely. There is just a little "hanging on" by the cough, or the albumen or sugar in your urine.

Then in a few weeks or months you get another attack from which you even more slowly recover, with just the same little "hanging on" process ensuing. Perhaps again you have another attack. When you reach a condition of this kind your doctor will tell you that your condition is "chronic."

What is my point?

Well, when you get an "acute" attack of anything, remember that it is up to you to help your defensive forces in every way.

Follow your doctor's orders to the smallest detail in the matter of rest, food, and even medicine should he give it to you. Don't let an "acute" condition become "chronic."

## TO LUCASTA

Tell me not, sweet, I am inkunde,  
That from the nunne  
Of thy chaste breast and quite munde,  
To warre and armes I flee.

True, a new mistress now I chase—  
The first foe in the field;  
And with a stronger faith embrace  
A sword, a horse, a shield.

Yet this inconstancy is such  
As you, too, should adore.  
I could not love thee, deare, so much  
Loved I not honor more.

—Richard Lovelace.

## Co-operate in Shipping

Fresno Republican

It is gratifying to note that shipping interests this year are showing an earnest desire to eliminate as much car shortage as possible and thereby facilitate the movement of perishable products to all markets. Evidence of the feeling of all concerned is obtained in the early action taken.

In previous years many of the difficulties that arose may be attributed to the fact that no one gave the car supply situation any amount of serious consideration until a shortage appeared. Then it was too late to remedy conditions.

This year shippers and railroad heads began to plan early for the movement of crops and to prepare for the movement of cars east and west in a real effort to prevent congestion at one end and a dearth at the other.

All interests believe there will be a car shortage this year, but if all observe the recommendations that have been made the general opinion seems to be that there will be less of this trouble than ever before.

The Interstate Commerce commission has taken cognizance of the situation and is lending its assistance, evidenced by the circular letter it issued just a day or two ago to shippers. Reports from its service bureau indicate that the railroads are trying to do their part and stress is laid on the necessity of full co-operation at shipping and receiving ends to insure the greatest benefits and the minimum of delay.

To railroads, the movement of perishables is always a problem. They must be moved quickly when they are ready and additional rolling stock is required that would not be needed if shipments could be distributed over any great length of time.

There is no question that the facilities of railroads are taxed to the utmost to move perishables and they always will be because of the volume they have to move and the short time given them in which to do it. It is therefore all the more important that shippers and receivers play their part and give the railroads the fullest co-operation.

## The Patchwork Quilt

By ELEANOR YOUNG ELLIOTT.  
(Have you any patches to add to it?)

A LONGING  
Oh I have trod the lowlands in  
shining cloak and hood,  
I have trod the lowlands and laugh-  
ed to find them good.  
The trees that stand as sentries,  
the brook across the lea,  
The berry vines a tangle, they've  
a' been guid to me.  
... Across the shining valley I  
see the mountains rise.  
Their pine-clad heights wind up-  
wards as though to touch  
the skies.

I never saw a mountain stream go  
leaping through the air.  
Just sprays of foam from rock to  
rock—they say the sight is  
fair.  
They tell me there are pine trees  
whose tops maist touch the  
sky.  
And mingle with the storm clouds  
that roll majestic by.  
... I wonder if a pine tree, sprung  
from a riven stone—  
I wonder does it love the rock—  
the rock from which it's  
grown?

Oh I have trod the lowlands for  
many a weary day...  
I only see the mountains—they  
are so far away!

CHRONICLES OF THE LITTLE  
GRAY HOUSE

Well, the Little Gray House, like  
Richard, is itself again, for Tall  
Son has returned from a two  
weeks' cruise with the Naval Re-  
servists with a bad case of sun-  
burn, an overwhelming appetite  
and a fund of tales of salt sea life  
that would do credit to the An-  
cient Mariner himself.

Drifting for five days down the  
Mexican coast, those young rascals  
truly had the time of their  
lives—and oh, the pranks that  
they played aboard ship! For in-  
stance there was the episode of  
the raisin pie. If ever anyone  
loved raisin pie, it is Tall Son, and  
one evening the ship cook served  
that delicacy to the hungry young  
reservists. Tall Son had slashed  
a huge wedge of it before his  
nearest companion was ready for  
pie.

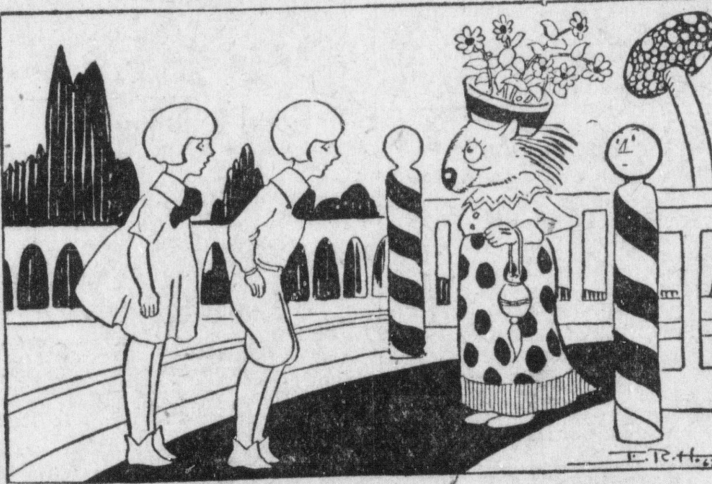

Looking hungrily at the section  
that was placed before the other  
lad, wily Son said "What a pity  
they didn't examine the raisins  
before they made the pies, and  
select some that weren't full of  
worms!"

The other boy gave one re-  
proachful look at the pie, pushed  
it away and hurriedly left the ta-  
ble. The pie went its way down  
the "little red lane" and Son, tri-  
umphant over the success of his  
ruse, wandered down the line of  
boys until he reached his own  
special pal's place, and there he  
sat with his pie still untouched.  
Just as he was ready to begin on  
it, Son decided to try the plan  
again, and repeated his remark  
about worms.

The other boy didn't hesitate.

ADVENTURES  
OF THE TWINS  
by Olive Roberts Barton

NO. 16.—MRS. PORCUPINE AND THE ROLLER COASTER

Mrs. Prickles Porcupine came  
to Happy Go Lucky Park one day  
all dressed up in her Sunday best.  
"Hello, Mrs. Porcupine," called  
Nick. "How nice you look!"

"I should say so," remarked  
Nancy kindly. "Where in the world  
did you get such a becoming hat?"

"Why, I got it at the store," said  
Mrs. Porcupine modestly. "But  
really, I couldn't make up my mind  
whether to take it or not. Yellow  
never was becoming to me and  
these brown-eyed Susans on the  
hat make me look lallow, I think."

"Oh, no, they don't," said Nancy.  
"They look lovely on your straw  
hat. Really they look exactly as  
though they were growing right  
out of a flower pot."

"Well, I'm glad of that," said  
Mrs. Porcupine, in a relieved voice.  
"I do hope it won't rain, for I came  
without an umbrella and I hope  
to get my best hat spoiled."

"How do you do, Mrs. Porcu-  
pine," said Mister Zip, the fairy  
man. "Welcome to Happy Go  
Lucky Park. We haven't seen you  
here much."

"No, this is my first visit," said  
Mrs. Porcupine, looking around.  
"I didn't want to come until I got  
my new hat. I just got it this  
morning."

At that Mister Zip said how be-  
coming it was "it" everything, but  
he added to himself, "I do hope  
she saved enough money to spend."

For Mister Zip liked to have people  
spend money in Happy Go Lucky  
Park. The more they spent the  
quicker he would make his for-  
tune.

"Show Mrs. Porcupine around,  
Nancy," he said out loud. "And  
see that she has a good time."

"What's that thing?" asked Mrs.  
Porcupine when they came to the  
roller coaster.

"That's the roller coaster," said  
Nancy. "You pay ten cents and

He lifted the top crust of the pie  
to investigate for himself. There,  
to Tall Son's horrified gaze, was  
bared the sight of juicy succulent  
raisins, lavishly sprinkled with  
countless little white round—

Well, anyway, the boy expressed  
his gratitude to Son for keeping  
him from eating the pie, but there  
was no Son there to reply. He  
was hanging over the rail watch-  
ing the moon come up.

Dear Patcher: Palmer Cox is  
dead. It will mean but little to  
thousands, perhaps millions of  
youngsters, in this prosaic age.  
But to other millions, who were  
youngsters twenty years ago—was  
it a gentler age? Cox's passing  
will bring real sadness. He was  
a man who, historically and in de-  
lightful rhyme, opened up vast  
vistas in enchanted lands. He let  
the proper kind of light into the  
lives of countless girls and boys  
who perhaps would otherwise  
never have known what a magic  
thing it is to allow a master to  
play on one's imagination.

—FALSTAFF.  
(Palmer Cox, author of the  
"Brownie" stories for children  
died Thursday July 24, at his home  
in Granby, Quebec, where he was  
born eighty-four years ago.—  
"Patcher.")

Dear "Patchy" Lady: Just as I  
was starting out to play the other  
day, I heard our neighbor down  
the street, tell me mama that she  
had had a falling out and had just  
lost 40 pounds. I hoped maybe I could  
help her find them, 'cause she  
looked so worried and thin over  
losing them, so I asked the little  
boy that sits in front of me at  
school, what a pound looked like,  
and he said the only pound he  
knew anything about was the "dog  
pound," and he said that pound  
hadn't been lost, because his father  
er kept it.

—LITTLE SISTER.

Can you picture it Belinda?

Oh, dear! We're in trouble  
again. And with Falstaff this  
time. Falstaff sent us a patch  
which was used last week and we  
read it so hasty that all that im-  
pressed us was the juxtaposition  
in the headlines of marihuana,  
corn and port, and we felt like it  
was enough to make anyone see  
double. Imagine then our feelings  
when we read the following Fal-  
staffian contribution.

"I chuckle and rub my hands.  
The Patcher overlooked the rub-  
bin of the patch I submitted last  
week! The headline didn't have  
a thing to do with it; it was the  
fact that the story, as written, had  
the police concealed in a ship-  
ment of corn. I'll draw a blue-  
print of it for you, if you like."

—FALSTAFF.
